

OBM

Date: September 28, 2011

To: Digital Assurance Certification
(Electronic Municipal Market Access and the Ohio SID)

Subject: Fiscal Year 2011 Annual Information Pursuant to Continuing Disclosure Agreements Under SEC Rule 15c2-12 Relating to Certain Bonds of the State of Ohio on which the State is an Obligated Party, which are secured by Net Liquor Profits.

Issuer CUSIP Numbers: 677518, 677519, 677520, 677521, 67755W, 67759W & 67759R

The State of Ohio, by its Office of Budget and Management (OBM), provides the attached annual information consisting of annual financial information and data of appropriate types, pursuant to the continuing disclosure agreements under SEC Rule 15c2-12 entered into by the authorizing agencies and relating to the obligations of the State listed on attached Schedule A.

Unless otherwise indicated, this annual information speaks as of June 30, 2011. In addition to providing annual information for Fiscal Year 2011, OBM is also providing with this filing the form of Fiscal Year 2011 unaudited financial report of the Ohio Department of Commerce – Division of Liquor Control.

There were in Fiscal Year 2011 disclosure of material events to the Municipal Securities Rulemaking Board (MSRB), through the MSRB's Electronic Municipal Market Access System (EMMA), and Ohio SID relating only to bond insurer downgrades and mandatory sinking fund redemption notices. There has been no change in the applicable fiscal year or in the accounting principles applied in the preparation of pertinent annual financial statements, and there has been no amendment or waiver of any portion of any of the applicable continuing disclosure agreements.

Respectfully submitted,

/s/ Timothy S. Keen

*TOS = Treasurer of State

STATE LIQUOR ENTERPRISE

Introduction

Under the Twenty-First Amendment to the United States Constitution, the State's power and authority within its borders over intoxicating liquors is virtually plenary. The Twenty-First Amendment, which repealed national Prohibition, provides in part that "the transportation or importation into any state . . . for delivery or use therein of intoxicating liquors, in violation of the law thereof, is hereby prohibited."

The State liquor enterprise (the "State Liquor Enterprise") has been operated by the State since 1934 as part of the overall program of State control of the production, distribution, use and sale of alcoholic beverages in the State.

Prior to July 1, 1997, the State Liquor Enterprise was under the direct control and operation of the Department of Liquor Control, which was one of the administrative departments of the State. On July 1, 1997, the Department of Liquor Control became a division (the "Division") of the State Department of Commerce. The current Superintendent of the Division is Bruce D. Stevenson who has served in such capacity since January 2011. At the end of Fiscal Year 2011 (June 30, 2011), the Division had 106 employees.

Ohio liquor control laws apply to all forms of intoxicating beverages (liquids and compounds fit to use for beverage purposes and containing more than 6% alcohol by weight). Through the regulation, permitting, enforcement, licensing, taxation and operation of, the State Liquor Enterprise, the State impacts virtually every aspect of the production, distribution, use and sale of alcoholic beverages in the State.

The State Liquor Enterprise is the sole source in the State of wholesale and retail sales of spirituous liquor in packages or containers. "Spirituous liquor" includes all intoxicating beverages containing more than 21% alcohol by volume (often stated as "42-proof" or more). For purposes of this discussion, spirituous liquor is also referred to as "liquor."

The production, distribution, use and sale of liquor contrary to State law is a crime. The "drinking age" for intoxicating beverages in the State is 21. An individual may "import" into the State no more than one quart of liquor in a 30-day period. Enforcement is by State and local police and by the Department of Public Safety of the State. The cost of enforcement (\$11,282,826 in Fiscal Year 2011) is paid by the Division as a non-operating expense.

The State Liquor Enterprise sells liquor at retail to the ultimate consumers, and at wholesale to permit holders, such as taverns, restaurants, hotels and clubs which sell liquor by the drink. Under present State law, wholesale permit holders purchase liquor at a 6.0% discount so that their price is equal to 94.0% of the retail sales price. Effective July 1, 2005, the Ohio General Assembly reduced the wholesale permit discount from 12.5% to 6% (see **Risk Factors**). The operations of the State Liquor Enterprise no longer include State-operated stores ("State Stores"). All liquor sales are instead through agency stores ("Agencies"), which sell all liquor, intended for use or consumption by the purchaser. Sales can be at retail, for consumption by the purchaser, or at wholesale by permit holders for resale by the drink. As of June 30, 2011, there were 452 Agencies in the State.

As required by State law, Agency operations are in establishments which sell other products as well. In Agency relationships, the Division sets the various prices of liquor and the hours during which liquor may be sold and controls inventory. The Division owns the liquor until it is purchased by the customer and the Agencies sell the liquor on a consignment basis. The Division does not set sales goals for the Agencies. Agencies receive commissions on their sales, currently 6% on retail sales and 4% on wholesale sales. The present statutory maximum on Agency commissions is 7%.

The award of an Agency is based on a number of different factors after the review of competitive proposals received by the Division after advertising. Among factors considered are: historical and pro-forma financial statements, available space, the location of other Agencies in the area, the availability of parking, and interviews with the potential Agency owners.

After a retailer has been awarded a contract for an Agency, it may lose the contract by violating the terms thereof. The retailer is also responsible for any breakage or shrinkage of stock.

(State Liquor Enterprise, cont.)

The Division has the authority to create entirely new Agencies in addition to the Agencies which replaced State Stores. Before the Division will create a new Agency, it considers a number of factors, including population and demand, and may hold public hearings to permit local residents and public officials to voice their sentiments about a new Agency.

Ohio is not unique in its handling of liquor control by means of a state-run monopoly. It is one of the 18 so-called "Control States," which sell intoxicants as a state control function. Not all Control States have the same method of distribution as Ohio, nor do they always sell identical products. Fourteen of the Control States, including Ohio, are in both the retail package sale and the wholesale business. Four are in the wholesale business only. The Control States are:

Alabama	Montana	Utah
Idaho	New Hampshire	Vermont
Iowa	North Carolina	Virginia
Maine	Ohio	Washington
Michigan*	Oregon	West Virginia*
Mississippi*	Pennsylvania	Wyoming*

*Wholesale only.

The Liquor Enterprise

The State Liquor Enterprise began immediately after the end of national Prohibition and has continued without interruption to date. The State Liquor Enterprise is an integral part of the overall State system of alcoholic beverage control and enforcement. It makes liquor available to the adult public in a reasonably convenient manner and without the types of advertising and promotions common in private industry.

The Agencies are distributed among Ohio's 88 counties, all as part of an ongoing program of locating outlets to accommodate shifts in population and to provide convenience to the public. Present State law authorizes (subject to local options) five outlets in each county, plus one additional agency for each 30,000 population increment after the first 40,000.

The State Liquor Enterprise has combined concepts of retail and wholesale marketing in a manner consistent with the overall control function of its operation. The Division attempts to stock the most popular brands of liquor, with each Agency stocked according to its local customer demand. Special orders may be placed, in case lots, for products not carried by the Division. Over 1,000 different sizes and brands or types of liquor are available to any of the Agencies. Effective in September 2004, agencies which generally were permitted to be open six days a week may also sell spirituous liquor on Sunday from 1 p.m. to midnight in liquor stores located in precincts where voters have already passed Sunday sales for (i) carryout and (ii) on-site consumption in bars and restaurants who apply for such permission. As of June 30, 2011, only 244 of the 452 Agencies are open on Sunday with another 18 eligible to open on Sunday but choosing not to do so. The remaining 190 Agencies would need local voter approval before they could open on Sunday. The Division has not experienced and is not currently projecting significant increases in Net Sales (being "Gross Sales" less the "wholesale discount" described below) as a result of Sunday sales, although the dollar amount of sales has grown as the number of open agencies has increased.

Legislation has been introduced in the Ohio General Assembly in the past proposing to remove the State from the process of selling bottled liquor at retail or both wholesale and retail, or exclude some categories of liquor from the State Liquor Enterprise operation. It is to be noted that the State has covenanted in various proceedings for its bonds secured by liquor profits to maintain statutory authority for the State to generate adequate Pledged Liquor Profits (as described below) to pay the debt charges on those bonds when due. If the State were to terminate operation of the State Liquor Enterprise, the State has covenanted to defease all then outstanding obligations in accordance with the provisions of the applicable Trust Agreements which provide for defeasance of those obligations only by deposit with the Trustee of moneys and/or direct U.S. Government obligations bearing such interest as will provide for payment of all debt charges when due.

(State Liquor Enterprise, cont.)

Pricing and Profits

Pricing of liquor by the State Liquor Enterprise is a function of purchase costs from the distillers, statutory requirements, State, local and federal tax levels, and control and revenue production. Current law requires that wholesale and retail prices for the same product be the same throughout the State (although local sales taxes may vary).

The Division fixes the wholesale and retail prices at which the various classes, varieties, sizes and brands of liquor are sold. Under present State law, in fixing those selling prices the Division is to compute an anticipated profit at least sufficient to provide in each calendar year all costs and expenses of the Division (including all its functions, not just the State Liquor Enterprise) and an adequate working capital reserve. Certain functions which are related to the sale or regulation of the sale and consumption of alcoholic beverages but are not part of the State Liquor Enterprise are paid for from liquor sale proceeds and total approximately \$12,944,990 per Fiscal Year. The current statutory cap on the gross profit is 40% of gross sales. A currently unused mark-up exception is for a maximum 10% mark-up on liquor manufactured in the State from the juice of grapes or fruits grown in the State.

Under present State law, purchasers are charged a fee equal to \$3.38 for each gallon of liquor bought from the Division and this amount is not included in, and is expressly excluded from, the Pledged Liquor Profits. This amount is transferred directly to the State's General Revenue Fund (GRF).

The various elements of retail pricing are illustrated by the following breakdown of costs of a hypothetical one liter bottle of liquor which costs the purchaser \$14.05 (before application of sales tax):

Cost of Vendor	\$ 7.75
Contract Freight to Outlets.....	0.08
Operating Cost Recovery (12.35%).....	0.96
Retail Accounting Mark-up (30%)	3.76
Additional 1980 surcharge (5%).....	0.67
State Gallonage Tax (\$3.38 per gallon).....	0.83

Under present State law, wholesale prices are to be at a discount of not less than 6.0% of the retail selling prices.

The Division participates in comparative price surveys through the Distilled Spirits Council of the United States and the National Alcoholic Beverage Control Association, Inc. which is the trade association of Control States. Price comparisons vary with the time and the product. In recent years prices in the State have generally been higher than in contiguous states. In general, prices are higher in Control States than in states which are not Control States. Of the states contiguous to the State, three (Michigan, Pennsylvania and West Virginia) are Control States and two (Indiana and Kentucky) are not.

Pledged Liquor Profits

The receipts from the State Liquor Enterprise are deposited, with the Treasurer of State as custodian, into the "Liquor Control Fund" which is designated by law as a special revenue fund. It is from these custodial moneys that all the expenses of the Division (including all its functions, not just the State Liquor Enterprise) are paid. Then, transfers are made from the Liquor Control Fund to the payment of senior obligations issued under Revised Code Chapter 166, including any applicable bond service reserve accounts, and then to the payment of subordinate obligations issued under Revised Code Chapter 151. Since Fiscal Year 1982, 1.5% of gross profits are then used for alcoholism treatment and research, prior to the transfer of the remainder thereof to the GRF. Pledged Liquor Profits are the total gross profits from the sale of spirituous liquor after paying all costs and expenses of the Division and providing an adequate working capital reserve, but excluding a gallonage tax equal to \$3.38 for each gallon of spirituous liquor sold, which amount is deposited directly into the GRF. The amount to provide an adequate working capital reserve is not set forth in the Ohio Revised Code, but officials of the Division generally require approximately \$10,000,000 annually to permit the Division to (i) purchase spirituous liquor, (ii) pay employees and basic costs of operations, and (iii) pay sales commissions to its agents (as hereafter discussed). The Treasurer is the custodian of all moneys collected by the Division and deposits those moneys into the Liquor Control Fund held by the Treasurer.

(State Liquor Enterprise, cont.)

The following chart shows unaudited results for Fiscal Years 2004 through 2011 with respect to sales in gallons, gross sales and Pledged Liquor Profits:

<u>Ending June 30</u>	<u>In Gallons</u>	<u>Gross Sales</u>	<u>Pledged Liquor Profits*</u>
2004	9,190,847	\$581,411,732	\$156,666,732
2005	9,559,146	617,667,501	164,774,399
2006	9,921,450	653,823,312	191,585,561
2007	10,168,320	687,996,772	203,231,239
2008	10,311,653	712,795,817	213,012,753
2009	10,620,774	744,900,664	224,227,470
2010	10,837,776	757,432,111	228,795,792
2011	11,179,761	785,966,257	237,176,247

*Before set aside of any amount for a working capital reserve.

Source: State of Ohio Department of Commerce Division of Liquor.

Through Fiscal Year 1993, the Auditor of State audited the financial reports of the Division. Beginning in Fiscal Year 1994, the Auditor of State has audited only those lines comprising "Liquor Sales" and "Costs of Goods Sold." The Auditor is not required by law to perform a full audit on each department or division of the State as a part of its audit of the State and does so only at the request of a department or division. The Auditor charges any department or division for which the Auditor performs a full audit a charge for performing such an audit.

Net Sales of the State Liquor Enterprise from its wholesale and retail business selling all Spirituous Liquor increased from \$423,965,233 in Fiscal Year 1999 to \$770,744,526 in Fiscal Year 2011, an average annual increase of 6.82%.

(State Liquor Enterprise, cont.)

In January 2003, due to unanticipated reduced revenue collections by the State, the Governor requested that the Ohio General Assembly consider several legislative proposals to enable the State to end its Fiscal Year ending June 30, 2003, with a positive balance in the GRF, as required by the Constitution. Among the legislative proposals was a request to double the gallonage tax on spirituous liquor. The proposal for the gallonage tax increase was not adopted and a GRF positive balance was attained by other means.

The doubling of the gallonage tax on spirituous liquor was again proposed and introduced in the Fiscal Year 2006-07 biennial budget, but not adopted. Alternatively, to gain additional GRF revenue, the Ohio General Assembly authorized the reduction of the discount granted on wholesale purchases of spirituous liquor from 12.5% to 6%. This was enacted and was effective July 1, 2005.

While the Ohio General Assembly did not adopt the gallonage tax increase in either case described above, any shift in consumer trends away from the consumption of spirituous liquor, whether as a result of lifestyle changes or due to an increase in the gallonage tax by the Ohio General Assembly, will have an adverse affect on Pledged Liquor Profits.
