

**State of Ohio**  
**Department of Aging**

**Role and Overview**

The [Department of Aging](#) (AGE) advocates for and serves the needs of Ohioans age 60 years and older. The agency works to improve the quality of life for older citizens with an emphasis on community-based and self-care options that promote active, healthy, and independent living. Day-to-day administration of the department is the responsibility of the director who is advised by a 12-member advisory council. Both the director and the council members are appointed by the Governor. The department, with an annual budget of approximately \$422 million and 99 employees, works with 12 regional Area Agencies on Aging to administer federal and state senior citizens programs throughout Ohio.

Approximately 74 percent of the department’s funding is directed to the PASSPORT program that provides community-based long-term care services to low-income older persons. The department houses the Long-Term Care Ombudsman program to advocate for long-term care consumers and hosts an online consumer guide to assist consumers and professionals in selecting a nursing home. The department also operates the Golden Buckeye Card program, the first statewide consumer discount program in the nation. Through the use of an outside contractor, the Golden Buckeye Card program also provides prescription drug discounts that enable seniors and persons with disabilities to receive needed prescription drugs at the lowest possible price. The department also provides community education and outreach through its publications, conferences, and events.

The Federal Administration on Aging has designated the Ohio Department of Aging as the State Unit on Aging for the purpose of administering programs funded by the Older Americans Act and related state programs, e.g., Senior Community Services, Alzheimer’s Respite.

**Executive Priorities for the Department of Aging**

- Provide cost-effective, high-quality home and community-based care to help seniors, who otherwise might enter nursing homes, remain safely independent.
- Provide support to caregivers by helping them access services, including support, training, and respite care.
- Screen all persons seeking long-term care to determine the appropriate placement. When long-term care is needed, provide information about options that can allow a person to remain at home.
- Serve as an advocate for long-term care consumers by seeking resolution of complaints through the Office of the State Long-Term Care Ombudsman.
- Expand opportunities for older adults to be involved in their communities through the National Senior Services Corps and Senior Community Services Employment Program.
