**INTRODUCTORY
SECTION**

State of Ohio - Office of Budget and Management
30 East Broad Street - Columbus, Ohio 43266-0411

February 15, 1989

To the Governor, the Honorable Members of the General Assembly and the Citizens of Ohio:

It is my privilege to issue the Comprehensive Annual Financial Report (CAFR) on the financial condition of the State of Ohio for the fiscal year ended June 30, 1988. The report is prepared in conformance with Generally Accepted Accounting Principles (GAAP) as prescribed by the Governmental Accounting Standards Board.

This report was prepared by the Ohio Office of Budget and Management pursuant to Section 126.21 of the Ohio Revised Code which requires that an official financial report of the State be issued annually. The report includes General Purpose Financial Statements (GPFS), which provide an overview of the State's financial position and the results of financial operations by fund type. The GPFS have been audited jointly by the Office of Auditor of State, Thomas E. Ferguson, and Ernst & Whinney, a nationally recognized certified public accounting firm. The results of this audit, the State's first such audit, are included in this report.

The Office of Budget and Management is responsible for the accuracy of the data presented and the completeness and fairness of its presentation, including all disclosures.

The State's General Purpose Financial Statements include all funds and account groups for which the State exercises "oversight responsibility." We used the criteria established in the Governmental Accounting Standards Board's Codification of Governmental Accounting and Financial Reporting Standards, Section 2100, to determine the funds and account groups over which the State has this responsibility. Note 1.A. to the financial statements explains more fully which financial activities are included in and which are excluded from the State's reporting entity.

In addition to the General Purpose Financial Statements, the CAFR includes the following: introductory information; combining financial statements that present summarized information by individual fund; supporting schedules; fund descriptions; and statistical tables that present financial, economic, and demographic data about the State.

FINANCIAL PRESENTATION

The data in the financial statements are presented in accordance with a fund classification system prescribed by the Governmental Accounting Standards Board. The purpose of this system is to improve the comparability of the financial reports of different governmental units.

The system has three categories of funds: governmental, proprietary, and fiduciary. Each category is divided into several "fund types."

Governmental fund types are those through which State functions are financed. There are four governmental fund types: General, special revenue, capital projects, and debt service funds.

Proprietary fund types are used to account for activities that are commercial in nature -- similar to those often found in the private sector. There are two proprietary fund types: enterprise and internal service funds.

Fiduciary fund types include trust funds, which account for assets held by the State in a trustee capacity, and agency funds, which account for assets held by the State as an agent for individuals, private organizations, other governments, or other funds.

We have adopted a reporting format for our Comprehensive Annual Financial Report that is significantly different from the way the State has traditionally reported its finances. The most obvious difference is that the "General Fund" in the CAFR includes more than just the State's General Revenue Fund. The General Fund also includes the Budget Stabilization Fund and reimbursement-supported funds used for activities administered by State agencies and departments for which special revenue or proprietary fund classifications were considered to be inappropriate.

Another difference is that for the State's special revenue fund type, more than 270 funds accounted for in the State's Central Accounting System have been summarized into 15 fund columns in the combining statements for the special revenue funds. In addition, unappropriated financial activities such as the workers' compensation and unemployment insurance functions are presented for the first time with traditional budgetary data.

The requirements of reporting in conformity with Generally Accepted Accounting Principles enable Ohio's government officials and other interested parties to view the State's financial condition in a more comprehensive manner.

INDEPENDENT AUDIT RESULTS

The outcome of the joint audit conducted by the Auditor of State and Ernst & Whinney, in accordance with generally accepted auditing standards, was an unqualified auditor's report ("clean opinion") on the governmental and fiduciary funds and account groups.

For the enterprise fund type, the audit highlighted inadequacies in claims history records maintained by the Bureau of Workers' Compensation (BWC). These deficiencies, cited in a separate report issued by BWC's independent auditors, Peat Marwick Main & Co., affect the actuarial estimates made for claims incurred. Because of these and other matters, the State's auditors were unable to render an opinion on the enterprise fund type, within which Workers' Compensation represents the predominant activity.

For the internal service fund type, deficiencies in fixed asset recordkeeping resulted in a qualification of the auditors' report on this fund type.

The State is working to resolve these deficiencies so that improved financial reporting will be achieved.

ACCOUNTING SYSTEM AND BUDGETARY CONTROL

In fiscal year 1988, the State completed the phased implementation of its new Central Accounting System (CAS). CAS replaced an obsolete 20-year-old accounting system and is the cornerstone of Ohio's revitalized financial management environment.

CAS achieves budgetary control over the various accounts of the State's funds. The bicameral legislature, the General Assembly, authorizes expenditures by appropriating funds in biennial and supplemental appropriation acts. The Office of Budget and Management uses CAS to control subsequent departmental obligation and expenditure activity to ensure that the authorized appropriations are not exceeded.

The State's budgetary financial statements are prepared on a modified cash basis of accounting. This means that revenues are recognized when cash is received and expenditures are recognized when cash is paid. Encumbrances, reservations of appropriation authority as of June 30, the end of the State fiscal year, are reflected as expenditures on the budgetary basis of accounting.

The State's GAAP financial statements for the governmental and expendable trust funds have been prepared on a modified accrual basis of accounting. This means that revenues are recognized when measurable and available; expenditures are recognized when goods or services are received or liabilities incurred. The enterprise, internal service, and pension trust funds are accounted for on the accrual basis of accounting. This means that revenues are recognized when earned and expenditures are recognized when incurred.

Additional discussion of the budgetary and GAAP bases of accounting is provided in Note 1 to the financial statements.

CAS maintains all budgetary-basis transactions and most GAAP-basis adjustments. In addition to the information obtained from the CAS for financial reporting, selected financial information provided by the State's agencies and departments is compiled to complete the GAAP-basis financial statements.

Differences between the two bases of accounting (budgetary vs. GAAP) include: (1) entity differences-- the GAAP reporting entity may include organizations such as financing authorities and other component units that are not included in the State's budget; (2) basis differences -- the GAAP basis results in the reporting of accruals while the budgetary basis results in the reporting of cash transactions; and (3) timing differences -- for example, GAAP recognizes expenditures for payables for goods and services received, whereas the budgetary basis considers unliquidated encumbrances as expenditures. A reconciliation between the GAAP-basis and budgetary-basis financial statements is presented in Note 3 to the financial statements.

CASH MANAGEMENT

In Ohio, with the exception of certain component units of the State that have independent powers to manage and invest their funds, the Treasurer of State is responsible for investing the State's cash pool. During fiscal year 1988, cash management and investment transactions made by the Treasurer of State's Office, in accordance with the Uniform Depository Act, were limited to checking accounts and certificate of deposits with qualified public depositories, U.S. government and agency obligations, and repurchase agreements. For fiscal year 1988, investment earnings on the State's cash pool managed by the Treasurer of State totaled \$139.5 million.

Quarterly, the Office of Budget and Management allocates the interest income earned on the cash pool to the various funds designated by law to receive the earnings. The allocation is calculated in accordance with a formula that is based on average daily cash balances invested during the quarter.

GENERAL GOVERNMENTAL FUNCTIONS

Major revenue sources for governmental fund types, recorded on a modified accrual basis, include the following: several tax sources (income, sales, corporate and public utility, motor vehicle fuel, and other taxes); federal government assistance; licenses, permits, and fees; sales, services, and charges; and other revenues.

Expenditures for governmental fund types, presented on the modified accrual basis, are shown for the following functions of general government: support for primary, secondary, and higher education; public assistance and medicaid; health and human services; justice and public protection; environmental protection and natural resources; transportation; general government services; community and economic development; local government support and tax relief; capital outlay; and debt service.

An analysis of revenues and expenditures for all governmental funds reported for fiscal year 1988 is shown in the graphic presentation that follows this letter.

DEBT ADMINISTRATION

Ohio's credit ratings by both Moody's Investors Service, Inc. (Moody's) and Standard & Poor's Corporation (S&P) for certain State general obligation bonds are Aa and AA, respectively, except that S&P rates the State's Highway Obligations and the Highway Improvement bonds AAA. Obligations issued by the Ohio Building Authority (OBA) and the Ohio Public Facilities Commission (OPFC) are rated A+ by S&P and A by Moody's. S&P upgraded its rating for OBA and OPFC obligations from A to A+ in September 1988.

As of June 30, 1988, the State reported a total of \$3.9 billion in outstanding debt issues in its General Long-Term Obligations Account Group as follows (amounts expressed in millions):

	Outstanding Balance as of June 30, 1988	Percentage Increase (Decrease) Since June 30, 1987
GENERAL OBLIGATION BONDS	\$ 757	+ 2.9%
SPECIAL OBLIGATION BONDS	2,982	+ 5.0%
REVENUE BONDS	167	-27.0%
TOTAL	<u>\$3,906</u>	

In addition, Ohio reported \$57.4 million in revenue bonds outstanding (net of unamortized discounts of \$4 million), as of June 30, 1988, for the proprietary funds, representing a 2.4 percent decrease since June 30, 1987.

RETIREMENT SYSTEMS

State employees may be eligible to participate in the Public Employees Retirement System (PERS), the State Teachers Retirement System (STRS), or the State Highway Patrol Retirement System (SHPRS).

Further information on the State's participation in the retirement systems can be found in Note 9 to the financial statements.

ECONOMIC OVERVIEW AND OUTLOOK

Ohio's economic growth has typically lagged behind U.S. economic growth and national recessions have hit Ohio harder than the U.S. as a whole. This has been due mainly to Ohio's strong dependence upon manufacturing, especially the steel and auto industries.

In recent years, however, employment growth in Ohio has been concentrated largely in the service and non-manufacturing sectors. Since January 1983, Ohio's heavy industry and manufacturing concerns have substantially revitalized plant and equipment which contributed to significant improvements in productivity, production capacity, and competitiveness. These developments have contributed to a reversal of Ohio's economic performance. Now a lesser portion of employment is devoted to manufacturing. The unemployment rate has dropped from a high of 13.8 percent to approximately six percent.

Budget planning has commenced for the 1990-91 biennium, July 1, 1989 through June 30, 1991. The economic forecast for the short-range future is that the nation and Ohio will experience slow, but continued growth. Additionally, most economists are not projecting a recession during the forecast period.

JOBS AND BUSINESS IN OHIO

Some recent highlights on jobs and business in Ohio include the following:

- ▣ Ford and Nissan are investing nearly a billion dollars in an Avon Lake truck plant—the largest single expansion project in Ohio's history. The State and the Lorain County Community College teamed up to help retrain auto workers for the plant.
- ▣ Honda of America Mfg., Inc. is building a second plant in Marysville and has begun exporting Ohio-made automobiles.
- ▣ Figgie International, one of the nation's fastest growing Fortune 500 companies, moved its headquarters back to Cleveland after eight years out of state.
- ▣ More than 300 foreign companies, including 100 Japanese firms, now call Ohio home.
- ▣ Continuation of the Ohio Thomas Edison Program as well as coal technology and minority business development programs have helped finance businesses and research projects.

ACKNOWLEDGMENTS

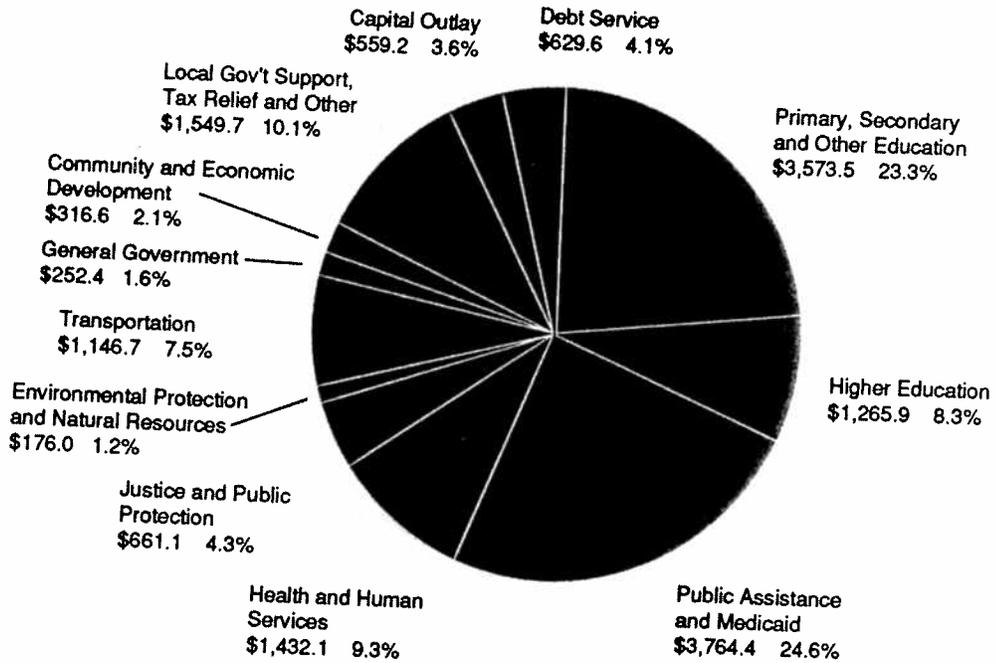

In conclusion, I wish to express my appreciation to the staffs of the various State agencies whose time and dedicated efforts made this report possible.

Sincerely,

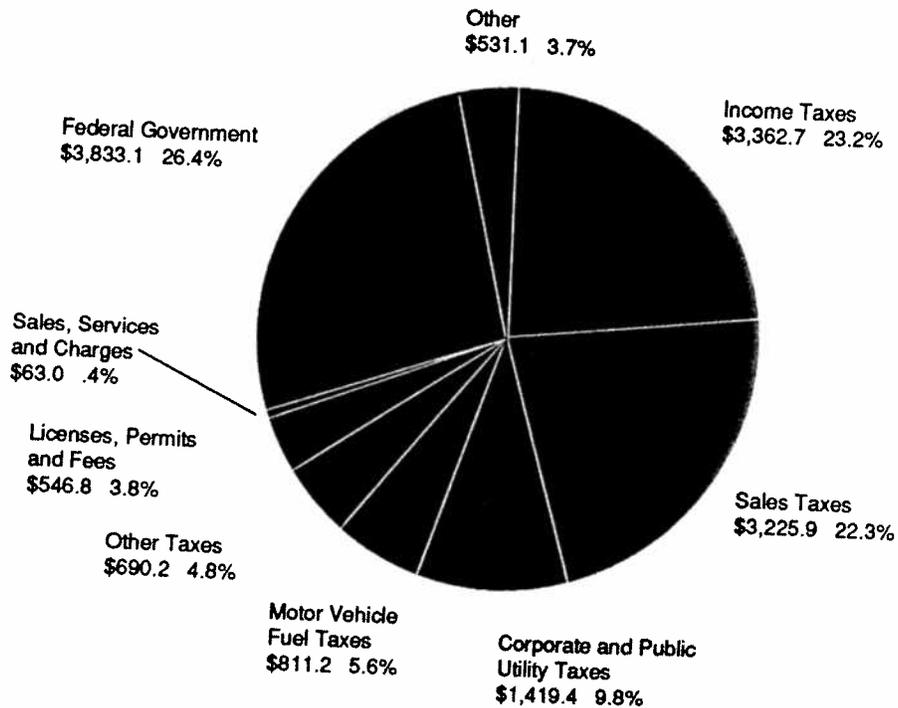

L. LEE WALKER
Director

REPORT OF INDEPENDENT AUDITORS

February 3, 1989

The Honorable Richard F. Celeste, Governor
State of Ohio
Columbus, Ohio

We have audited the accompanying general purpose financial statements of the State of Ohio, as of and for the year ended June 30, 1988, as listed in the table of contents. These financial statements are the responsibility of the State's management. Our responsibility is to express an opinion on these financial statements based on our audit. We did not audit the financial statements of the following component units and funds: the Ohio Air Quality Development Authority, the Ohio Water Development Authority, the Ohio Housing Finance Agency, the Economic Development Financing Division, the Minority Development Finance Commission, the Ohio Public Facilities Commission, the Ohio Bureau of Employment Services, the Ohio Turnpike Commission, the Ohio Building Authority, the State Parking Commission, the Ohio Bureau of Workers' Compensation and Industrial Commission of Ohio and the State Highway Patrol Retirement System, which statements reflect the following percent of total assets or liabilities and revenue of the indicated fund type and account groups:

	Percent of Total Assets/(Liabilities)	Percent of Total Revenues
Special Revenue fund type	21%	15%
Debt Service fund type	73%	8%
Capital Projects fund type	15%	14%
Enterprise fund type	91%	40%
Internal Service fund type	73%	72%
Trust and Agency fund type	29%	100%
General Fixed Assets account group	42%	----
General Long-Term Obligations account group	(69%)	----

The financial statements of these component units and funds were audited by other auditors whose reports have been furnished to us, and our opinion, insofar as it relates to the amounts of these component units and funds included in the fund types and account groups comprising the general purpose financial statements is based solely on the reports of the other auditors.

We conducted our audit in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as, evaluating the overall financial statement presentation. We believe that our audit and the reports of other auditors provide a reasonable basis for our opinion.

As more fully described in Notes 8 and 15, information is not available to include certain fixed assets, accumulated depreciation, depreciation expense and capital lease obligations of the Ohio Data Network, the Ohio Penal Industries and the Ohio Telecommunications funds which are reported as part of the internal service fund type.

As more fully described in Note 18, the accounting records of the Ohio Bureau of Workers' Compensation and Industrial Commission of Ohio are not adequate to permit proper measurement of certain assets and liabilities, including estimates of reserves for claims. In addition, the outcome of several litigation matters is uncertain. The scope of work of their independent auditors was not sufficient to enable them to express an opinion and they did not express an opinion on the financial statements of the Ohio Bureau of Workers' Compensation and Industrial Commission of Ohio, which are reported as part of the enterprise fund type.

Because the auditors of the financial statements of the Ohio Bureau of Workers' Compensation and Industrial Commission of Ohio, as described in the previous paragraph, did not express an opinion on such financial statements which statements reflect total assets of 91 percent and revenues of 40 percent of the related totals of the enterprise fund type, we are unable to and do not express an opinion on the financial statements of the enterprise fund type.

In our opinion, based on our audit and reports of other auditors, and except that the omission of certain fixed assets, accumulated depreciation, depreciation expense and capital lease obligations as described in the third preceding paragraph results in an incomplete presentation for the internal service fund type, the general purpose financial statements referred to in the first paragraph, other than those of the enterprise fund type on which we disclaim an opinion as described in the previous paragraph, present fairly, in all material respects, the financial position of the State of Ohio at June 30, 1988, and the results of its operations and the cash flows of its internal service fund type and pension trust fund for the year then ended in conformity with generally accepted accounting principles.

The Honorable Richard F. Celeste, Governor

As more fully described in Note 19, certain expenditures incurred by the Ohio Bureau of Employment Services special revenue fund and which were reimbursed under federal awards have been questioned in the amount of \$51,343,260. The amount of expenditures which may be ultimately disallowed by grantor agencies and repaid by the Bureau is not presently determinable, and no provision has been made in the financial statements for the effect, if any, of such repayment.

Our audit was made for the purpose of forming an opinion on the general purpose financial statements taken as a whole. The combining financial statements and schedule listed in the table of contents are presented for purposes of additional analysis and are not a required part of the general purpose financial statements of the State of Ohio. Such information has been subjected to the auditing procedures applied in our audit of the general purpose statements and, in our opinion, except with respect to the enterprise fund type and the omission of certain internal service fund information, is fairly presented in all material respects in relation to the general purpose financial statements taken as a whole.

We did not examine the data included in the statistical section of this report and, therefore, express no opinion thereon.

Thomas E. Ferguson

Ernst & Whinney

STATE OF OHIO
NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accompanying financial statements of the State of Ohio present the financial position of the various fund types and account groups, the results of operations of the various fund types, and the cash flows of the proprietary and pension trust funds. The financial statements are presented, as of June 30, 1988, and for the year then ended, and have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the standard-setting body for establishing governmental accounting and financial reporting principles, which are primarily set forth in the GASB's Codification of Governmental Accounting and Financial Reporting Standards (GASB Codification). The State's significant accounting policies are described below.

A. Financial Reporting Entity

For financial reporting purposes, the State includes all funds, account groups, elected offices, departments, and agencies of the State, as well as bureaus, boards, commissions, authorities, and retirement systems over which the State's executive, legislative, or judicial branches exercise oversight responsibility. Oversight responsibility is defined in GASB Codification Section 2100 and includes the following considerations: financial interdependency, selection of governing authority, designation of management, ability to significantly influence operations, accountability for fiscal matters, the scope of an organization's public service, and/or special financing relationships.

Based on the application of the GASB Codification criteria, the following additional organizations meet the oversight criteria and are also included in the accompanying financial statements:

Ohio Public Facilities Commission	State Highway Patrol Retirement System
Ohio Building Authority	Ohio Turnpike Commission
State Parking Commission*	Ohio Student Loan Commission
Ohio Higher Education Facility Commission	Ohio Lottery Commission
Ohio Housing Finance Agency	
Ohio Air Quality Development Authority	
Ohio Water Development Authority	

* In early calendar year 1988, the State Underground Parking Commission's name was changed to the State Parking Commission

The following organizations have been determined not to be part of the reporting entity after applying the manifestations of oversight responsibility criteria of GASB Codification Section 2100, and therefore, have been excluded from the accompanying financial statements:

Public Employees Retirement System
School Employees Retirement System
State Teachers Retirement System
Police and Firemen's Disability and Pension Fund
All State-assisted universities and colleges
Ohio Public Employees Deferred Compensation Board

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The retirement systems listed on the previous page maintain a portion of their assets with the Treasurer of State who serves as custodian of the assets. The assets remain under the administrative and financial control of the retirement systems, which maintain separate independent accounting systems. The retirement systems' assets other than those of the State Highway Patrol Retirement System are not reported in the State's financial statements.

B. Basis of Presentation — Fund Accounting

The State of Ohio uses funds and account groups to report on its financial position and results of its operations. Fund accounting is designed to demonstrate legal compliance and aid financial management by segregating transactions related to certain government functions or activities.

A fund is a separate accounting entity with a self-balancing set of accounts. An account group is a financial reporting entity designed to provide accountability for certain assets and liabilities that are not recorded in the funds because they do not directly affect expendable available financial resources. Funds are classified into three categories: governmental, proprietary, and fiduciary. Each category, in turn, is divided into separate "fund types."

A description of each fund type and account group follows.

1. Governmental Fund Types

General — The General Fund accounts for current financial resources traditionally associated with government, which are not required legally or by sound financial management practices to be accounted for in another fund.

Special Revenue — The special revenue funds account for specific revenues that are legally restricted to expenditure for designated purposes. The general administrative activities of the Ohio Turnpike Commission, Ohio Water Development Authority, and Ohio Air Quality Development Authority are included in the special revenue funds for their fiscal years ended December 31, 1987.

Debt Service — The debt service funds account for the accumulation of resources for the payment of general long-term debt principal and interest. The debt service activities of the Ohio Turnpike Commission are included in the debt service funds for its fiscal year ended December 31, 1987.

Capital Projects — The capital projects funds account for the acquisition and construction of major capital facilities and for major repairs and replacements other than those financed by proprietary funds and trust funds. The capital projects activities of the Ohio Turnpike Commission are included in the capital projects funds for its fiscal year ended December 31, 1987.

2. Proprietary Fund Types

Enterprise — The enterprise funds account for operations that are financed and operated in a manner similar to private business enterprises — where the State's intent is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user

STATE OF OHIO
NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 19

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

charges; or where the State has decided that periodic determination of net income is appropriate for accountability purposes. The Ohio Bureau of Workers' Compensation and the State Parking Commission are included in the enterprise funds for their fiscal years ended December 31, 1987.

Internal Service — The internal service funds account for the financing of goods or services provided a State department or agency to other State agencies and to other government units, on a cost-reimbursement basis.

3. Fiduciary Fund Types

Trust funds account for assets held by the State in a trustee capacity. Agency funds account for assets held by the State as an agent for individuals, private organizations, other governments, and/or other funds. The State Highway Patrol Retirement System is included as a pension trust fund for its fiscal year ended December 31, 1987.

4. Account Groups

General Fixed Assets — The General Fixed Assets Account Group accounts for fixed assets acquired or constructed for use by the State for general governmental purposes. These include all fixed assets except those accounted for in the proprietary funds.

General Long-Term Obligations — The General Long-Term Obligations Account Group accounts for the State's unmatured general obligation bonds and other long-term obligations not required to be accounted for in the proprietary and pension trust funds.

C. Measurement Focus and Basis of Accounting

The accounting and financial reporting treatment applied to a fund is determined by its measurement focus.

Governmental and expendable trust funds are accounted for using a flow of financial resources measurement focus. Under this measurement focus, only current assets and current liabilities generally are presented on the balance sheet; increases (i.e., revenue and other financing sources) and decreases (i.e., expenditures and other financing uses) in net current assets are presented in these funds' operating statements.

Proprietary and pension trust funds are accounted for using a flow of economic resources measurement focus. Under this measurement focus, all assets and liabilities associated with the operations of these funds are presented on the balance sheet; fund equity (i.e., net assets) is segregated on the balance sheet into two components, contributed capital and retained earnings. Increases (i.e., revenues) and decreases (i.e., expenses) in net assets are presented in these funds' operating statements.

The modified accrual basis of accounting has been applied to all governmental, expendable trust, and agency funds. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual, that is, when they become both measurable and available. "Measurable" means the

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

amount of the transaction can be determined, and "available" means the amount is collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The State considers revenues as available, if they are collected within 60 days after year end. Expenditures are recorded when the related fund liability is incurred. Principal and interest on general long-term debt are recorded as fund liabilities when due or when amounts have been accumulated in the debt service funds for payments to be made in the subsequent fiscal year.

Significant revenue sources susceptible to accrual under the modified accrual basis of accounting follow:

- Sales and use taxes
- Personal income taxes
- Motor vehicle fuel taxes
- Charges for goods and services

Licenses, permits, fees, and other miscellaneous revenues are not susceptible to accrual because generally they are not measurable until received in cash.

Deferred revenue, as reported on the State's combined balance sheet, represents resources received before the State has a legal claim to them, such as the receipt of federal grant monies prior to the incurrence of qualifying expenditures. When the State has a legal claim to the resources, the revenue is recognized.

The accrual basis of accounting has been applied to proprietary and pension trust funds. Under this method, revenues are recorded when earned, and expenses are recorded when incurred.

D. Budgetary Process

As required by the Ohio Revised Code, the Governor submits biennial operating and capital budgets to the General Assembly. The particular budget, which includes those funds of the State subject to appropriation pursuant to State law, is composed of all proposed expenditures for the State and of estimated revenues and borrowings for a biennium.

The General Assembly enacts the budget through passage of specific departmental line-item appropriations by program or major object of expenditures. The governor may veto any item in an appropriation bill, subject to legislative override.

Operating appropriations, appropriated biennially, are generally provided in annual amounts, while capital appropriations are biennial.

Transfers of appropriations between years of a biennium and budget revisions during a year, reflecting program changes or intradepartmental transfers of an administrative nature, may be effected with certain executive and legislative branch approval. Only the General Assembly, however, may transfer or authorize the conditions under which appropriations may be transferred between departments.

STATE OF OHIO
NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The State's Central Accounting System controls expenditures by fund and by line-item for items established in appropriation acts. A modified cash basis of accounting is used for budgetary purposes. Encumbrance accounting, under which purchase orders, contracts, and other commitments for expenditures are recorded as a reserve of the applicable appropriations, is employed as an extension of formal budgetary integration in the State's accounting system. Encumbrances outstanding in the General, special revenue, and capital projects funds at fiscal year end are reported as reservations of fund balance for expenditure in subsequent years. Operating encumbrances are generally canceled five months after fiscal year end while capital encumbrances are automatically reappropriated. More comprehensive accounting of activity on the budgetary basis is provided in the separately published annual Ohio Budgetary Financial Report, which is available upon request.

In the Statement of Revenues, Expenditures and Changes in Fund Balances--Budget and Actual (Budgetary Basis), budgeted revenues for the General Fund represent periodically updated revenue budgets. For other budgeted funds, the original budgeted revenues, as submitted by the Governor, do not represent actual forecasts of revenues and are not amended to coincide with any legislative changes to the original expenditure budget. Accordingly, budgeted revenues and other financing sources and uses for budgeted funds other than the General Fund are reported at actual amounts, since the State does not have updated, budgeted revenue and other financing sources and uses amounts for use in the accompanying budgetary basis financial statements.

Because the State budgets on a modified cash basis of accounting, which differs from GAAP, a reconciliation of the differences between the GAAP basis and the budgetary basis of reporting is presented in NOTE 3.

E. Cash Equity with Treasurer

Cash equity with Treasurer is carried at cost, which approximates market. All cash deposited with the Treasurer of State to the credit of appropriated funds, including the cash float, consists of pooled investments primarily composed of demand deposits, short-term securities, and other investments. These monies are considered to be cash equivalents for purposes of the Statement of Cash Flows.

F. Security Deposits

Security deposits include various deposit and investment instruments placed by their owners in safekeeping with the Treasurer of State, as required by applicable statutes.

G. Investments

Investments include long-term investments that may be restricted by law or other legal instruments. Investments are carried at cost or amortized cost except those of the Deferred Compensation Agency Fund, which are reported at market.

For the State Highway Patrol Retirement System Pension Trust Fund and the Bureau of Workers' Compensation Enterprise Fund, corporate and government bonds and obligations with fixed maturities and investments in common and preferred stocks are carried at cost or market; investments in short-term obligations are carried at cost, which approximates market value.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

For the Ohio Lottery Commission Enterprise Fund, specific State investments are dedicated to the payment of deferred prize awards and are stated at cost, which is not in excess of market value.

H. Inventories

For governmental funds, the costs of inventories acquired are recorded as expenditures when purchased. At year end, physical counts are taken of significant inventories for the governmental fund types and are generally valued at weighted-average cost. Proprietary fund inventories are valued at cost, which approximates market, principally on a first-in, first-out consumption method.

I. Restricted Assets

Assets held by a trustee in connection with the State's financing lease arrangements are classified in the internal service funds as restricted assets, since their use is limited by applicable leases and trust agreements (See NOTE 14).

Assets restricted for payment of deferred prize awards (Ohio Lotto) are reported for the Ohio Lottery Commission in the enterprise funds.

A covenant for the State's 1983 economic development bonds requires a portion of the bond proceeds be held and invested in a reserve account placed with a trustee financial institution. These restricted assets are reported in the special revenue funds.

Additionally, covenants for the Ohio Building Authority's bonds require its pledged receipts also be held and invested in a reserve account placed with a trustee financial institution. These restricted assets are reported in the internal service funds.

J. Fixed Assets

General Fixed Assets — General fixed assets are not capitalized in the funds used to acquire or construct them. Instead, capital acquisition and construction are reflected as expenditures in governmental funds, and the related assets are reported in the General Fixed Assets Account Group. All purchased fixed assets are valued at cost where historical records are available and at estimated historical cost where no historical records exist. Donated fixed assets are valued at their estimated fair market value at acquisition date.

The costs of normal maintenance and repairs that do not add to the asset value or materially extend an asset's useful life are not capitalized. The cost of major improvements is capitalized.

Public domain ("infrastructure") general fixed assets consisting of among other assets, roads, bridges, curbs and gutters, streets and sidewalks, drainage systems, and lighting systems, are not capitalized, since these assets are immovable and of value only to the government.

Assets in the General Fixed Assets Account Group are not depreciated.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Proprietary and Fiduciary Fund Fixed Assets — Fixed assets are stated at cost or, for donated assets, at fair market value at acquisition date. Fixed assets, excluding land, are depreciated on the straight-line method over estimated service lives. Material interest is capitalized on proprietary fund fixed assets acquired through the issuance of debt. Fixed asset records for certain of the State's internal service funds are incomplete as described in NOTE 8. Accordingly, fixed asset accounts are understated, and the associated depreciation expense is not recorded.

K. Long-Term Obligations

A long-term obligation is recognized as a liability of a governmental fund when due. Only that portion expected to be financed from expendable available financial resources is reported as a liability of a governmental fund. The remaining portion of such obligations is reported in the General Long-Term Obligations Account Group. Included among these liabilities are the noncurrent portions of liabilities resulting from debt issuances, compensated absences, judgments, leases, and workers' compensation benefits. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

As discussed in NOTES 11 and 12, bonds issued by the Ohio Building Authority (OBA) to finance State-related projects are reported as special obligation bonds in the General Long-Term Obligations Account Group while OBA bonds issued to finance local government projects for State purposes are reported as revenue bonds in the internal service funds.

L. Compensated Absences

State employees earn vacation leave, sick leave, and personal leave at various rates within limits specified under collective bargaining agreements or under law. Such leave is liquidated in cash, under certain restrictions, either annually in December, or at the time of termination from State employment. For governmental funds, the liability for compensated absences is reported in the General Long-Term Obligations Account Group. For proprietary fund types, the liability for compensated absences is reported as a current accrued liability.

In accordance with the provisions of Statement of Financial Accounting Standards No. 43, Accounting for Compensated Absences, no liability is recorded for nonvesting accumulated rights to receive sick pay benefits. However, a liability is recognized for that portion of accumulated sick leave benefits that is estimated to be taken as "terminal leave" prior to retirement.

M. Reservations/Designations of Fund Equity

Reservations

Reserves represent those portions of the fund equity not appropriable for expenditure or are legally restricted to a specific future use.

Designations

Designated fund balances represent tentative plans for future use of financial resources.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

N. Self-Insurance

In general, the State is self-insured for health care claims, workers' compensation, vehicle liability, and public fidelity blanket bonds and, except for certain coverages, is substantially uninsured for property losses and tort liability claims.

O. Intergovernmental Revenues/Receivables

Intergovernmental revenues primarily represent resources from reimbursement-type grants received from the federal government. Intergovernmental receivables and revenues are recorded when the related grant expenditures/expenses are incurred.

P. Interfund Transactions

The State records the following types of transactions among funds:

Operating Transfers — Legally required transfers that are reported when incurred as “operating transfers-in” by the recipient fund and as “operating transfers-out” by the disbursing fund.

Transfers of Expenditures (Reimbursements) — Reimbursements of expenditures made by one fund for another that are recorded as expenditures in the reimbursing fund and as a reduction of expenditures in the reimbursed fund.

Residual Equity Transfers — Nonroutine or nonrecurring transfers between funds that are reported as additions to or deductions from fund equity.

Quasi-external Transactions — Charges or collections for services rendered by one fund to another that are recorded as revenues of the recipient fund and expenditures or expenses of the disbursing fund.

A summary of the State's interfund receivables and payables, as of June 30, 1988, is presented in NOTE 7.

Q. Memorandum Only - Total Columns

Total columns on the general purpose financial statements are captioned “Memorandum Only” to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with GAAP. Neither are such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

STATE OF OHIO
 NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 2 CHANGES IN ACCOUNTING PRINCIPLES AND REPORTING PRACTICES

During fiscal year 1988, the State changed its basis of accounting for financial reporting purposes from the cash basis to the modified accrual basis for governmental and expendable trust funds and to the accrual basis for proprietary funds, including the valuation of most fixed assets. These changes include adding component units to the reporting entity, the recognition of taxes, intergovernmental and other receivables, the valuation of assets based on cost, the appropriate depreciation accumulated to date and charged to the proprietary funds' operations, the recognition of a Medicaid liability and other liabilities, and the establishment of the General Fixed Assets and General Long-Term Obligations account groups, as of July 1, 1987. Information on fixed assets, depreciation, and capital lease liabilities for the Ohio Penal Industries, Telecommunications, and Ohio Data Network internal service funds, however, was not available, as of July 1, 1987.

Accordingly, fund balances and retained earnings, as of July 1, 1987, have been restated for the changes to conform to GAAP. These restatements had the following effect on fund balances/retained earnings and the General Fixed Assets and General Long-Term Obligations Account Groups (amounts expressed in thousands):

Fund Type	Balances (Deficits), as of June 30, 1987, As Previously Reported	Adjustments to Reflect Increases (Decreases) Due to Changes in Basis of Accounting	Adjustments to Reflect Increases (Decreases) from Changes in Reporting Entity	Balances (Deficits), as of July 1, 1987, As Restated

STATE OF OHIO
NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 3 GAAP vs. BUDGETARY BASIS

Actual revenues, operating transfers-in, expenditures, encumbrances, and operating transfers-out on the budgetary basis do not equal those reported on the GAAP basis in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances — All Governmental Fund Types and Expendable Trust Fund. This inequality results primarily from basis differences in the recognition of accruals, deferred revenue, interfund transactions, loan transactions, and from the budgetary basis of accounting for encumbrances. On the budgetary basis, encumbrances are recognized as expenditures in the year encumbered, while on the modified accrual basis, expenditures are recognized when goods or services are received regardless of the year encumbered. Another major difference between GAAP and budgetary fund balances is an entity difference for those unbudgeted funds that do not require appropriations.

Budgetary expenditures in the accompanying Combined Statement of Revenues, Expenditures and Changes in Fund Balances--Budget and Actual (Budgetary Basis) represent original appropriations modified by supplemental and amended appropriations.

A reconciliation of the fund balances recorded under the two bases for the General, special revenue, debt service, and capital projects funds is presented on the following page.

NOTE 4 DEPOSITS AND INVESTMENTS

A. Legal Requirements

The deposit and investment policies of the Treasurer of State and the State Board of Deposit are governed by the Uniform Depository Act, Chapter 135, Ohio Revised Code, which requires that monies held by the State be maintained in one of the following three classifications:

Active Deposits — Those monies required to be kept in a cash or near-cash status to meet current demands. Such monies must be maintained either as cash in the State's treasury or in any of the following:

- A commercial account that is payable or withdrawable, in whole or in part, on demand;
- A negotiable order of withdrawal account;
- A money market deposit account; or
- A designated warrant clearance account.

Inactive Deposits — Those monies not required for use within the current two-year period of designation of depositories. Inactive monies may be deposited or invested only in certificates of deposit maturing not later than the end of the current period of designation of depositories.

Interim Deposits — Those monies not required for immediate use, but needed before the end of the current period of designation of depositories. Interim deposits may be deposited or invested in the following instruments:

- Bonds, notes, or other obligations of or guaranteed by the United States, or those for which the faith of the United States is pledged for the payment of principal and interest;
- Bonds, notes, debentures, or other obligations or securities issued by any federal government agency, or the Export-Import Bank of Washington;
- Repurchase agreements in the securities enumerated above;
- Interim deposits in the eligible institutions applying for interim monies;
- Bonds and other obligations of the State of Ohio;
- The Treasurer of State's investment pool;
- Prime-rated corporate commercial paper, up to a \$50 million investment limit;
- Linked deposits, reduced-rate deposits at financial institutions that provide reduced-rate loans to small businesses, as authorized under Section 135.63, Ohio Revised Code; and
- Agricultural linked deposits, reduced-rate deposits at financial institutions placed on or before June 30, 1987, that provide reduced-rate loans to farmers, as authorized under Section 135.74, Ohio Revised Code.

STATE OF OHIO
NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

The State's deposits must be held in insured depositories approved by the State Board of Deposit and must be fully collateralized.

In some cases, deposit and investment policies of certain individual funds and component units are established by Ohio Revised Code provisions other than the Uniform Depository Act and by bond trust agreements. In accordance with applicable statutory authority, the State Highway Patrol Retirement System Pension Trust Fund and the Ohio Bureau of Workers' Compensation may invest in U.S. government and agency bonds and obligations, repurchase agreements, money market funds, commercial paper, common and preferred stocks, corporate bonds and notes, mortgage loans, real estate, and/or other investments.

B. Deposits

As of June 30, 1988 (December 31, 1987, for the Ohio Water Development Authority, Ohio Bureau of Workers' Compensation, State Highway Patrol Retirement System, State Parking Commission, and Ohio Turnpike Commission), the carrying amount of the State's deposits was \$353,831,000 and the bank balance was \$350,206,000. Of the bank balance, \$113,632,000 was fully insured or collateralized with securities held by the State or its agent in the State's name, \$207,452,000 was collateralized with securities held by the pledging financial institution's trust department or its agent in the State's name, and \$29,122,000 was uninsured and uncollateralized.

C. Investments

The State categorizes investments to give an indication of the level of risk assumed by the State at year end. Category 1 includes investments that are insured, registered, or held by the State or its agent in the State's name. Category 2 includes uninsured and unregistered investments held by the counterparty's trust department or its agent in the State's name. Category 3 includes uninsured and unregistered investments held by the counterparty, its trust department, or its agent, but not in the State's name.

Certain investments have not been categorized because the securities are not used as evidence of the investment. These uncategorized investments include ownership in mutual funds, real estate, and limited partnerships, the deposit with the federal government, security deposits, and the deposit with the State's deferred compensation plan.

STATE OF OHIO
 NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 4 DEPOSITS AND INVESTMENTS (Continued)

The following summary identifies the level of credit risk assumed by the State and the total carrying amount and market value of the State's investments, as of June 30, 1988 (December 31, 1987, for the Ohio Bureau of Workers' Compensation, Ohio Air Quality Development Authority, the Ohio Water Development Authority, State Highway Patrol Retirement System, State Parking Commission, and Ohio Turnpike Commission) (amounts expressed in thousands):

	Carrying Amount			Total	Market Value
	Category 1	Category 2	Category 3		
U.S. government obligations and U.S. government agency obligations	\$ 5,411,599	\$ 33,514	\$ 159,710	\$ 5,604,823	\$ 5,604,168

NOTE 8 *FIXED ASSETS*

A summary of fixed assets by category follows (amounts expressed in thousands):

	Enterprise	Internal Service	General Fixed Assets
Land	\$ ---	\$ ---	\$ 144,996
Buildings	---	1,927	959,310
Improvements other than buildings	7,245	---	63,668
Machinery and equipment	60,543	2,631	126,088
State vehicles	---	---	140,128
Construction-in-progress	---	---	643,384
Subtotal	<u>67,788</u>	<u>4,558</u>	<u>2,077,574</u>
Less: Accumulated depreciation	<u>(33,968)</u>	<u>(1,949)</u>	<u>---</u>
Total	<u>\$ 33,820</u>	<u>\$ 2,609</u>	<u>\$ 2,077,574</u>

For the Ohio Penal Industries, Telecommunications, and Ohio Data Network internal service funds, information is not available on fixed assets, accumulated depreciation, and depreciation expense. Accordingly, such amounts for these funds are not included above or in the accompanying financial statements. The effects of these omissions on the accompanying financial statements cannot be determined. Management is assembling the necessary records to permit fixed asset reporting in conformity with GAAP.

No projects were under construction, for the year ended June 30, 1988, that resulted in capitalized interest for the proprietary fund types.

State capital appropriations to State-assisted universities and colleges are not reflected in the assets above, but are generally capitalized and reported in the respective financial statements of those entities.

Changes in general fixed assets for the year ended June 30, 1988, were as follows (amounts expressed in thousands):

	Balance July 1, 1987	Additions	Retirements	Balance June 30, 1988
Land	\$ 141,759	\$ 3,408	\$ 171	\$ 144,996
Buildings	937,687	29,059	7,436	959,310
Improvements other than buildings	52,993	10,675	---	63,668
Machinery and equipment	122,465	10,588	6,965	126,088
State vehicles	128,213	21,339	9,424	140,128
Construction-in-progress	<u>393,459</u>	<u>271,572</u>	<u>21,647</u>	<u>643,384</u>
Total	<u>\$ 1,776,576</u>	<u>\$ 346,641</u>	<u>\$ 45,643</u>	<u>\$ 2,077,574</u>

NOTE 9 PENSION PLANS

All part-time and full-time employees and elected officials of the State are eligible to be covered by one of the following retirement plans:

- Public Employees Retirement System (PERS)
- State Teachers Retirement System (STRS)
- State Highway Patrol Retirement System (SHPRS)

The payrolls for State employees covered by PERS, STRS, and SHPRS for the year ended June 30, 1988, were \$1.29 billion, \$29 million, and \$39 million, respectively; the State's total covered payroll was \$1.36 billion.

A. PERS and STRS

Both PERS and STRS are cost-sharing, multiple-employer public employee retirement systems.

Participants in PERS, who retire at age 60 with five or more years of service credit or at any age with 30 or more years of service credit, are eligible to annual retirement benefits. The benefit is based on 2.1 percent of final average salary multiplied by the years of service credit. Persons retiring before age 65 with less than 30 years of service credit receive a percentage reduction in benefit amounts. Retirement benefits vest after five years of credited service. PERS also provides survivor and disability benefits. PERS benefits are established under Chapter 145, Ohio Revised Code.

Participants in STRS, who retire after 30 years of credited service regardless of age, or at or after age 55 with 25 years of credited service, or at or after age 60 with five years of credited service, are entitled to a maximum annual retirement benefit, payable in monthly installments for life, equal to the greater of the "two-percent formula benefit" or the "money-purchase benefit" calculation.

Under the "two-percent formula benefit" calculation, the maximum annual retirement allowance is equal to two percent of an average of a member's three highest years' salary multiplied by the member's number of years of credited service (maximum of 45 years). Under the "money-purchase benefit" calculation, a member's lifetime contributions, plus interest at specified rates, are matched by an equal amount from contributed employer funds. This total is then divided by an actuarially determined annuity factor to determine the maximum annual retirement allowance. Annually, after retirement, STRS benefits are increased three percent if the cost of living, as measured by the Consumer Price Index, has increased at three percent on a cumulative basis. STRS also provides death, survivor, and disability, health care, and supplemental benefits. STRS benefits are established under Chapter 3307, Ohio Revised Code.

Employer and employee required contributions to PERS and STRS are established under the Ohio Revised Code and are based on percentages of covered employees' gross salaries, which are calculated annually by the retirement systems' actuaries. Contributions required and made for the fiscal year ended June 30, 1988, are summarized below:

Contribution Rates — Fiscal Year 1988

	<u>Employee Share</u>	<u>Employer Share</u>
PERS	8.50%	13.71%
STRS	8.75%	14.00%

STATE OF OHIO
 NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 9 PENSION PLANS (Continued)

	Contributed Amounts — Fiscal Year 1988 (amounts expressed in thousands)	
	Employee Share	Employer Share
PERS	\$ 102,051	\$ 184,757
STRS	\$ 2,510	\$ 4,017

The "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and step-rate benefits, estimated to be payable in the future as a result of employee service to date. The measure, which is the actuarial present value of credited projected benefits, is intended to assist financial statement users in assessing a pension plan's funding status on a going-concern basis and progress made in accumulating sufficient assets to pay benefits when due and in making comparisons among public employee retirement systems and employers. The PERS and STRS do not make separate measurements of assets and pension benefit obligation for individual employers.

Therefore, the pension benefit obligation determined through an actuarial valuation, the net assets available for benefits, and the unfunded pension benefit obligation for PERS and STRS, as a whole, are presented below (amounts expressed in thousands):

	PERS, as of December 31, 1986	STRS, as of July 1, 1988
Pension benefit obligation	\$ 13,284,000	\$ 19,324,598
Net assets available for benefits (valued at cost)	<u>10,841,200</u>	<u>14,258,680</u>
Unfunded pension benefits obligation	<u>\$ 2,442,800</u>	<u>\$ 5,065,918</u>

The market value of net assets available for benefits for PERS was \$11.31 billion at December 31, 1986 and the market value of net assets available for benefits for STRS at July 1, 1988, was unavailable. Actuarial valuations are calculated annually by the retirement systems' actuaries.

Occasionally, the General Assembly increases benefit payments to the current PERS and STRS retirees. In certain instances, concurrent with the passage of such legislation, a provision for payment of these benefits through State appropriations is made. The State paid \$4 million and \$6 million to PERS and STRS, respectively, for benefit increases during the year ended June 30, 1988. Funding for these benefit increases is on a pay-as-you-go basis by the State.

The State's contribution to PERS represented 24.91 percent of total PERS contributions during calendar year 1987 of all participating entities. The State's contribution to STRS represented 0.59 percent of total STRS contributions of all participating entities for its fiscal year ended June 30, 1988.

Available ten-year historical trend information showing each retirement system's progress in accumulating sufficient assets to pay benefits when due is presented in the PERS and STRS financial reports, as of December 31, 1987, and June 30, 1988, respectively, which are the most recent data available.

NOTE 9 PENSION PLANS (Continued)

B. SHPRS

SHPRS was established in 1944 by the General Assembly as a single-employer, defined benefits pension plan. SHPRS is authorized under Chapter 5505, Ohio Revised Code, to provide retirement and disability benefits to retired members and survivor benefits to qualified dependents of deceased members of the Ohio State Highway Patrol.

SHPRS' general administration and management is vested in a six-member retirement board, which consists of three elected members and three statutory members. The board appoints an executive director, actuary, investment advisor, investment monitor, and other employees.

SHPRS membership consisted of the following, as of December 31, 1987:

Retirees and beneficiaries currently receiving benefits and terminated employees entitled to benefits but not yet receiving them	578
Current employees:	
Vested	242
Nonvested	<u>1,013</u>
Total	<u>1,833</u>

Contributions to SHPRS

Chapter 5505, Ohio Revised Code, requires contributions by active members and the Ohio State Highway Patrol. The employee contribution rate is established by the General Assembly, and any change in the rate requires legislative action. The employer contribution rate is established by the SHPRS Retirement Board and certified to the State of Ohio every two years. By law, the employer rate may not exceed three times the employee contribution rate. Active members and the Ohio State Highway Patrol are required to contribute nine percent and 24.66 percent, respectively, of active member payroll. Contributions may be refunded to a member who terminates employment with the Ohio State Highway Patrol or to the member's beneficiary following the member's death.

SHPRS Benefits

Members are eligible for normal retirement benefits upon reaching age 52 and accumulating at least 20 years of Ohio State Highway Patrol service credit. The benefits are a percentage of the member's final average salary, the average of the member's three highest salaried years. The percentage is determined by multiplying 2.5 percent times the first 20 years of service plus two percent times the next five years plus 1.5 percent for each year in excess of 25 years of service. A member's pension cannot exceed 72 percent of the final average salary. Early retirement with reduced benefits is available upon reaching age 48 with 20 years of service credit.

In addition to the retirement benefits, SHPRS also provides for disability, survivor, and health care benefits. Qualified dependents of a deceased member are eligible for monthly survivor benefits. All members receiving a benefit from SHPRS are eligible to receive medical insurance.

NOTE 9 PENSION PLANS (Continued)

Members with credited service from prior Ohio State Highway Patrol service, military service time prior to employment, military service interrupting Ohio State Highway Patrol service, and full-time police or fire service are eligible to purchase service credit for one or all of the related retirement plans. Effective October 20, 1987, members of the SHPRS with prior participation in Ohio's State Teachers Retirement System, School Employees Retirement System, Public Employees Retirement System, or Cincinnati Retirement System became eligible to purchase service credit for one or all of the related retirement plans.

SHPRS Funding Status and Progress

The amount shown as "pension benefit obligation" is a standardized disclosure measure of the present value of pension benefits, adjusted for the effects of projected salary increases and any step rate benefits, estimated to be payable in the future as a result of employee service to date. The measure is the actuarial present value of credited projected benefits and is intended to help financial statement users in assessing SHPRS' funding status on a going-concern basis and its progress in accumulating sufficient assets to pay benefits when due and in making comparisons among public employee retirement systems. The measure is independent of the actuarial funding method used to determine contributions to SHPRS.

The pension benefit obligation was determined as part of an actuarial valuation, as of December 31, 1987. Actuarial valuations are calculated annually by SHPRS' actuaries. Significant actuarial assumptions used in the valuation include the following:

- Rate of return on the SHPRS investments of 7.5 percent, compounded annually, net of administration expenses;
- Projected salary increases of 5.5 percent, compounded annually, attributable to inflation;
- Additional projected salary increases ranging from 0 to 4.2 percent a year attributable to seniority and merit;
- Post-retirement mortality life expectancies of members based on the 1971 Group Annuity Mortality Male and Female Tables, projected to 1984;
- Rates of withdrawal from active service before retirement for reasons other than death, rates of disability and expected retirement ages developed on the basis of actual plan experience;
- Health care costs are assumed to increase 5.5 percent annually;
- Health care benefit recipients are eligible for Medicare on attainment of age 65, or immediately, if retired for disability;
- Employer contributions paid in equal installments throughout the employer fiscal year; and
- Pension benefits will increase after retirement in accordance with valuation assumptions at December 31, 1987.

STATE OF OHIO
 NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 9 PENSION PLANS (Continued)

The total unfunded pension benefit obligation at December 31, 1987, was \$57 million as follows (amounts expressed in thousands):

Pension Benefit Obligation:

Retirees and beneficiaries currently receiving benefits and terminated employees not receiving benefits	\$ 65,411
Current employees:	
Accumulated employee contributions, including allocated investment income	25,342
Employer-financed vested	44,624
Employer-financed nonvested	53,920
Total pension benefit obligation	<u>189,297</u>
Net assets available for health care and pension benefits, at cost (market value is \$156 million)	150,827
Net assets available for benefits allocated to health care benefits	<u>(18,410)</u>
Net assets available for pension benefits	<u>132,417</u>
Unfunded pension benefit obligation	<u><u>\$ 56,880</u></u>

The pension benefit obligation shown above does not include an estimated obligation for health care benefits, and accordingly, the net assets available for benefits is reduced by the amount applicable to health care benefits to calculate the unfunded pension benefit obligation.

SHPRS Contributions Required and Contributions Made

SHPRS' funding policy provides for periodic employer contributions at actuarially determined rates that, expressed as percentages of annual covered payroll, are sufficient to accumulate sufficient assets to pay benefits when due. Level percentage of payroll employer contribution rates are determined using the entry age actuarial funding method. SHPRS also uses the level percentage of payroll method to amortize the unfunded liability over a closed 32-year period. A statutory cost-of-living contribution of .5 percent of active member payroll is also required.

STATE OF OHIO
 NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 9 PENSION PLANS (Continued)

During calendar year 1987, contributions were made in accordance with actuarially determined contribution requirements determined through actuarial valuations performed at December 31, 1986. These contributions consisted of the following (amounts expressed in thousands):

	<u>Amount</u>	<u>Percent of Active Member Payroll</u>
Normal costs	\$ 9,668	25.11%
Amortization of the unfunded actuarial accrued liability	3,099	8.05
Statutory cost-of-living contributions	<u>193</u>	<u>.50</u>
Total	<u>\$ 12,960</u>	<u>33.66%</u>

The available required two-year trend information follows:

	<u>1987</u>	<u>1986</u>
Net assets available for benefits as a percentage of pension benefit obligation	70.0%	71.3%
Unfunded pension benefit obligation as a percentage of annual covered payroll	147.7%	131.3%
Employer contributions as a percentage of annual covered payroll	24.7%	24.7%

SHPRS maintains its own accounting system separately from the State's and publishes a separate publicly available component unit financial report. The available required 10-year historical trend information showing the fund's progress in accumulating sufficient assets to pay benefits when due is presented in that report, as of December 31, 1987.

SHPRS Health Care Benefits

In addition to providing pension benefits, SHPRS pays health insurance claims on behalf of all persons receiving a monthly pension or survivor benefit and Medicare Part B basic premiums for those eligible benefit recipients upon proof of coverage. The cost of retiree health care benefits is recognized as claims are incurred and premiums are paid. The calendar year 1987 expense was \$795 thousand.

Health care benefits are funded on an actuarial basis. During 1987, 3.03 percent and 1.02 percent of active member payroll was allocated to fund health care normal costs and the amortization of the unfunded actuarial accrued liability, respectively. The net assets available for benefits allocated to health care cost at December 31, 1987, was \$18 million.

The actuarial accrued liability for health care benefits, the portion of the present value of plan promises to pay benefits in the future that are not covered by future normal cost contributions, was \$29 million, as of December 31, 1987.

STATE OF OHIO
 NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 10 GENERAL OBLIGATION BONDS

The State has pledged its faith and credit for the payment of principal and interest on general obligation bonds accounted for and included with obligations in the General Long-Term Obligations Account Group.

At various times since 1921 Ohio voters, by 12 constitutional amendments (the last adopted in 1987), have authorized the incurrence of general obligation debt for the construction and improvement of State facilities and highways, compensation for military service during the Vietnam Conflict, research and development of coal technology, and local infrastructure improvements. In practice, general obligation bonds are retired over periods of 10 to 35 years.

As of June 30, 1988, \$3.96 billion in general obligation debt (excluding Highway Obligations discussed below), had been authorized by constitutional amendment of which \$2.48 billion had been issued and \$311 million was outstanding; the authorization to issue \$233 million had expired.

Coal Development bonds may be issued as long as the outstanding principal amount does not exceed \$100 million.

Highway Obligations may be issued as long as the outstanding principal amount does not exceed \$500 million. The aggregate of General Assembly authorizations, as of June 30, 1988, for Highway Obligations, was \$1.18 billion, of which \$1.07 billion had been issued and \$446 million was outstanding. Additional Highway Obligations may be issued from time to time, as authorized by the General Assembly, as outstanding Highway Obligations are retired.

A 1987 constitutional amendment authorized the issuance of \$1.2 billion of general obligation bonds for infrastructure improvements (Infrastructure Bonds), of which no more than \$120 million may be issued in any year. As of June 30, 1988, no Infrastructure Bonds had been issued.

General obligation bonds outstanding, and bonds authorized but unissued, as of June 30, 1988, were as follows (amounts expressed in thousands):

<u>Purpose</u>	<u>Issued</u>	<u>Average Net Interest Rates</u>	<u>Maturing Through</u>	<u>Outstanding Balance</u>	<u>Authorized But Unissued</u>
Highway Obligations.....	1969-88	4.3-7.4%	1998	\$ 446,250	\$ 111,875
Highway Improvement.....	1969-71	4.4-6.2	1989	9,650	----
Improvement.....	1970-71	5.0-5.2	1992	54,900	----
Public Improvements.....	1971-75	4.3-6.0	1995	68,100	----

STATE OF OHIO
 NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 10 GENERAL OBLIGATION BONDS (Continued)

Changes in general obligation bonds during the year ended June 30, 1988, are summarized in NOTE 10. Future general obligation debt service requirements, as of June 30, 1988, were as follows (amounts expressed in thousands):

Year Ending June 30,	Principal	Interest	Total
1989.....	\$ 154,075	\$ 42,138	\$ 196,213
1990.....	131,025	33,725	164,750
1991.....	115,145	26,332	141,477
1992.....	95,900	20,018	115,918
1993.....	71,205	14,775	85,980
Thereafter.....	189,775	25,427	215,202
Total.....	<u>\$ 757,125</u>	<u>\$ 162,415</u>	<u>\$ 919,540</u>

NOTE 11 SPECIAL OBLIGATION BONDS

Special obligation bonds reported in the General Long-Term Obligations Account Group have been authorized and issued by the Ohio Building Authority (OBA) and the Ohio Public Facilities Commission (OPFC). OBA bonds finance the capital costs of categories of facilities including correctional facilities and office buildings for State departments and agencies and, in some cases, related facilities for local governments. OPFC bonds finance the cost of capital facilities for State-supported and State-assisted institutions of higher education, mental hygiene and retardation, and parks and recreation.

OBA bonds issued for State agencies are reflected as special obligation bonds, and OBA bonds issued for related local government facilities are shown as revenue bonds (See NOTE 12).

OBA and OPFC bonds are secured by pledges of lease rental payments from biennial General Fund appropriations, funds held by trustees pursuant to related trust agreements, and other receipts, as required by the respective bond documents.

Special obligation bonds outstanding, and bonds authorized but unissued, as of June 30, 1988, were as follows (amounts expressed in thousands):

Organization	Issued	Average Net Interest Rates	Maturing Through	Outstanding Balance	Authorized But Unissued
Ohio Building Authority	1979-88	5.1-9.3% (and variable rates)	2014	\$ 921,296	\$ ----
Ohio Public Facilities Commission.....	1970-88	5.0-13.1%	2005	2,060,470	978,210
Total.....				<u>\$ 2,981,766</u>	<u>\$ 978,210</u>

STATE OF OHIO
 NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 11 SPECIAL OBLIGATION BONDS (Continued)

Changes in special obligation bonds reported in the General Long-Term Obligations Account Group for the year ended June 30, 1988, are summarized in NOTE 16. Future special obligation debt service requirements, as of June 30, 1988, were as follows (amounts expressed in thousands):

Year Ending June 30,	Principal	Interest	Total
1989	\$ 142,922	\$ 223,581	\$ 366,503
1990	153,589	212,461	366,050
1991	161,632	200,667	362,299
1992	174,108	188,271	362,379
1993	187,175	174,774	361,949
Thereafter	<u>2,162,340</u>	<u>1,082,801</u>	<u>3,245,141</u>
Total	<u>\$ 2,981,766</u>	<u>\$ 2,082,555</u>	<u>\$ 5,064,321</u>

In fiscal year 1988, the OPFC advance refunded certain Higher Education and Mental Health bonds with two separate special obligation refundings. The OPFC issued \$130 million and \$72 million of special obligation refunding bonds to advance refund \$114 million and \$80 million, respectively, of special obligation bonds. The net proceeds of \$200 million plus an additional \$30 million of existing debt service monies were used to purchase U.S. government securities, which were placed in irrevocable trusts with an agent to provide for all future debt service payments on the refunded principal. As a result, the refunded bonds are no longer considered to be outstanding and the corresponding principal amounts have been removed from the total OPFC special obligation bond liability balance in the General Long-Term Obligations Account Group.

The OPFC advance refunded the Higher Education bonds to reduce its debt service payments over 18 years by \$15 million and to obtain an economic gain of \$9 million. The OPFC advance refunded the Mental Health bonds to reduce its debt service payments over 11 years by approximately \$21 million and to obtain an economic gain of \$7 million.

In prior years, OBA defeased certain bond issues by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust account assets and the liabilities for the defeased bonds are not included in the State's financial statements. As of June 30, 1988, \$340 million of OBA bonds outstanding are considered defeased.

NOTE 12 REVENUE BONDS

The State Constitution permits State agencies and authorities to issue bonds that are not supported by the faith and credit of the State. These bonds pledge income derived from user fees and rentals on the acquired or constructed assets to pay the debt service. Issuers include the Ohio Turnpike Commission (OTC), Treasurer of State for the Ohio Department of Development's Economic Development Financing Division (EDFD), State Parking Commission (SPC), and Ohio Building Authority (OBA).

NOTE 12 REVENUE BONDS (Continued)

OTC bonds financed the construction and acquisition of roadways (the Ohio Turnpike), and equipment. OTC bonds are payable from OTC revenues, including tolls and other user charges.

Economic development bonds, issued by the Treasurer of State for the EDFD's Direct Loan Program, provide financing for loans and loan guarantees to businesses within the State, which cannot obtain conventional financing for economic development projects that create or retain jobs in the State. The bonds are secured with profits derived from the sale of spirituous liquor by the Ohio Department of Liquor Control and pledged monies and related investment earnings held in reserve under a trust agreement with a financial institution.

During fiscal year 1988, a new series of taxable economic development bonds in the amount of \$10 million was issued by the Treasurer of State for the EDFD, placed in a reserve, and invested with a trustee and pledged to secure the repayment of additional economic development bonds issued in connection with the Ohio Enterprise Bond Program. As of June 30, 1988, no bonds related to the specific Ohio Enterprise Bond Program projects had been issued or were outstanding. The revenue bonds for the Ohio Enterprise Bond Program will be issued from time to time pursuant to the direction of the Director of Development under the authority of Section 166.09, Ohio Revised Code. This debt will provide private entities with capital financing for economic development projects and will primarily be secured by the property financed. Payments made by the borrowing entities will be used to retire the debt and to service interest payments.

SPC bonds financed the construction of the underground parking facility located under the statehouse grounds in Columbus. SPC revenues, after provision for operation and maintenance of the facility, are pledged to repay the bonds.

Some OBA revenue bonds finance the costs of office buildings and related facilities for shared use by local governments. The principal and interest requirements on these bonds are paid from rentals received.

STATE OF OHIO
 NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 12 REVENUE BONDS (Continued)

Revenue bonds outstanding, as of June 30, 1988 (December 31, 1987, for the SPC), net of unamortized discounts as applicable to the proprietary fund types only, were as follows (amounts expressed in thousands):

Organization	Issued	Interest Rates	Maturing Through	Outstanding Balance
General Long-Term Obligations:				
Ohio Turnpike Commission	1984	8.5%	1992	\$ 4,810
Economic Development/Treasurer of State	1985-88	9.7-11.4	2007	162,070
Total				<u>\$ 166,880</u>
Enterprise:				
State Parking Commission	1963	4.0	2003	\$ 1,374
Total				<u>\$ 1,374</u>
Internal Service:				
Ohio Building Authority	1985	5.5-9.8	2007	\$ 56,039
Total				<u>\$ 56,039</u>

The outstanding balance of OBA's bonds, as reported above, includes current bonds payable of \$1.646 million, which is reflected in "Refund and Other Liabilities" on the Combined Balance Sheet -- All Fund Types and Account Groups, as of June 30, 1988.

The balance of revenue bonds outstanding for the proprietary fund types, as reported in this note for the fiscal year ended June 30, 1988, include unamortized bond discounts of \$4 million.

Changes in revenue bonds reported in the General Long-term Obligations Account Group for the year ended June 30, 1988, are summarized in NOTE 16.

Future revenue bond service requirements, as of June 30, 1988 (December 31, 1987, for the SPC and OTC) were as follows (amounts expressed in thousands):

Year Ending June 30,	General Long-Term Obligations Account Group		Enterprise		Internal Service	
	Principal	Interest	Principal	Interest	Principal	Interest
1989	\$ 2,390	\$ 17,252	\$ 184	\$ 49	\$ 1,653	\$ 4,572

Total	<u>\$ 166,880</u>	<u>\$ 221,824</u>	<u>\$ 1,435</u>	<u>\$ 175</u>	<u>\$ 60,214</u>	<u>\$ 61,131</u>

STATE OF OHIO
 NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 13 NO COMMITMENT DEBT (not included in the financial statements)

The State of Ohio by action of the General Assembly created various financing authorities for the expressed purpose of making available to non-profit and, in some cases, for-profit private entities lower cost sources of capital financing for facilities and projects found to be for a public purpose. Fees are assessed to recover related processing and application costs incurred. The authorities' debt instruments represent limited obligations payable solely from payments made by the borrowing entities. Most of the bonds are secured by the property financed. Upon repayment of the bonds, ownership of acquired property transfers to the entity served by the bond issuance. This debt is not deemed to constitute a debt of the State or pledge of the faith and credit of the State. Accordingly, these bonds are not reflected in the accompanying financial statements.

As of June 30, 1988 (December 31, 1987, for the Ohio Air Quality Development Authority and the Ohio Water Development Authority), revenue bonds, net of advance refunded bonds of \$714 million, and notes outstanding, as reported in the following organizations' financial statements that represented "no commitment" debt for the State were as follows (amounts expressed in thousands):

<u>Organization</u>	<u>Outstanding Amount</u>
Ohio Air Quality Development Authority	\$ 1,550,436
Ohio Housing Finance Agency	1,280,034
(net of discount)	
Ohio Water Development Authority	<u>881,502</u>
(net of discount)	
Total	<u>\$ 3,711,972</u>

NOTE 14 LEASE OBLIGATIONS

As of June 30, 1988, \$66 million and \$30 million of lease obligations (including accrued interest) were payable from the State Data Center and the Telecommunications internal service funds, respectively, for the purchase of data-processing equipment and software, and a telecommunications system upgrade, financed through a financing lease (ultimately fractionalized by the sale of certificates of participation).

Under the financing arrangement, the State is required to make lease payments. Those lease payments approximate the interest and principal payments made by a trustee to certificate holders.

STATE OF OHIO
NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 14 LEASE OBLIGATIONS (Continued)

Future minimum lease commitments, as of June 30, 1988, were as follows (amounts expressed in thousands):

Year ending June 30,	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
1989	\$ 12,105	\$ 6,700	\$ 18,805
1990	16,935	5,859	22,794
1991	19,700	4,515	24,215
1992	10,940	3,302	14,242
1993	9,705	2,539	12,244
Thereafter	25,895	2,560	28,455
Total	<u>\$ 95,280</u>	<u>\$ 25,475</u>	<u>\$ 120,755</u>

NOTE 15 OTHER LONG-TERM OBLIGATIONS

As of June 30, 1988, other long-term obligations of the State reported in the General Long-Term Obligations Account Group were as follows (amounts expressed in thousands):

Compensated absences (A)	\$ 113,392
Lease agreements (B)	7,227
Judgments (C)	15,005
Workers' Compensation Obligation (D)	258,890
Deferred interest (E)	40,021
Employee Severance Anticipation Compensation Plan (E)	7,874
Total Other General Long-Term Obligations	<u>\$ 442,409</u>

A. Compensated Absences

Generally, employees accrue vacation leave at a rate of 3.1 hours every two weeks for the first five years of employment, up to a maximum rate of 7.7 hours every two weeks after 20 years of employment. Employees may accrue a maximum of three years vacation leave credit. At termination or retirement, employees are paid at their full rate 100 percent of unused vacation leave, personal leave, and compensatory time and 50 percent of unused sick leave.

In order to lessen the impact of terminal leave pay on a given State department's budget, an accrued leave funding program was instituted by law in 1982. State agencies must contribute a percentage of gross payroll to a common pool of resources from which terminal leave expenditures/expenses are paid. The amount of cash equity with Treasurer and related interest receivable available to satisfy terminal pay claims at June 30, 1988, was \$67 million. These and related assets are reported as part of the Payroll Withholding and Fringe Benefits Agency Fund.

NOTE 15 OTHER LONG-TERM OBLIGATIONS (Continued)

The compensated absence liability for proprietary funds is reported net of their portion of accrued leave funding and is reflected in accrued liabilities. The compensated absence liability for governmental funds is also reported net of their portion of the accrued leave funding and is reported as part of the General Long-Term Obligations Account Group.

The gross compensated absences liability, as of June 30, 1988, was \$189 million of which \$15 million is allocable to the proprietary funds and \$174 million is allocable to the General Long-Term Obligations Account Group. The net (after reduction of the \$67 million) compensated absence liability, as of June 30, 1988, was \$122 million, of which \$9 million is reported in the proprietary funds and \$113 million is reported in the General Long-Term Obligations Account Group.

B. Lease Agreements

The State leases office buildings and office and computer equipment. Although the lease terms vary, most leases are renewable subject to biennial appropriations by the General Assembly. If the likelihood of the exercise of a fiscal funding clause in the lease agreement is in the judgment of management remote, then the lease is considered noncancelable for financial reporting purposes and is reported as a fund expenditure/expense for operating leases or in the General Long-Term Obligations Account Group or appropriate proprietary fund types for capital leases.

Assets acquired through capital leasing are valued at the lower of fair market value or the present value of the future minimum lease payments at the inception of the lease. Capital lease obligations for the proprietary fund types are reported in those funds as long-term obligations. The related assets and depreciation of these assets are included in the proprietary funds. Capital lease obligations for the governmental fund types are reported in the General Long-Term Obligations Account Group and the related assets are reported in the General Fixed Assets Account Group.

Operating leases (leases on assets not recorded in the combined balance sheet) contain various renewal options as well as some purchase options.

Any escalation clauses, sublease rentals, and contingent rents are considered immaterial to the future minimum lease payments and current rental expenditures. Operating lease payments are recorded as expenditures or expenses of the related funds when paid or incurred.

For the Telecommunications and Ohio Data Network internal service funds, information is not available to report capital leases and the related fixed assets, accumulated amortization and amortization expense, and required lease and noncash financing and investing activities disclosures in conformity with GAAP. Accordingly, such amounts for these funds are not included below or in the accompanying financial statements. The effects of these omissions on the accompanying financial statements cannot be determined. Management is assembling the necessary records to permit capital lease reporting in conformity with GAAP.

STATE OF OHIO
 NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 15 OTHER LONG-TERM OBLIGATIONS (Continued)

The total operating lease expenditures/expenses for fiscal year 1988 were approximately \$14 million. Future minimum lease commitments for operating leases and capital leases judged to be noncancelable, as of June 30, 1988, were as follows (amounts expressed in thousands):

Fiscal year ending June 30,	Operating Leases	CAPITAL LEASES	
		General Long-Term Obligations	Enterprise Funds
1989	\$ 10,712	\$ 3,734	\$ 104
1990	1,877	3,038	104
1991	1,624	1,981	67
1992	1,377	740	3
1993	1,216	46	---
Thereafter	2,244	---	---
Total minimum lease payments	<u>\$ 19,050</u>	9,539	278
Less: Amount representing interest		2,312	32
Present value of net minimum lease payments		<u>\$ 7,227</u>	<u>\$ 246</u>

As of June 30, 1988, the State had the following fixed assets (net of accumulated depreciation for proprietary funds and exclusive of the capital leases of the Telecommunications and Ohio Data Network internal service funds) under capital leases (amounts expressed in thousands):

	General Long-Term Obligations	Enterprise	Total
Equipment	\$ 6,929	\$ 302	\$ 7,231
Vehicles	298	---	298
Total	<u>\$ 7,227</u>	<u>\$ 302</u>	<u>\$ 7,529</u>

Amortization expense for the enterprise funds is included with depreciation expense.

C. Judgments

The Ohio Department of Education has been involved with several school desegregation court cases filed against the State by various local boards of education. In cases where the judgment went against the State, the courts decided that the State was responsible for sharing in all past and future desegregation costs. As of June 30, 1988, the State was responsible for \$15 million in past desegregation costs, which is recorded in the General Long-Term Obligations Account Group. The total liability for future desegregation costs cannot be estimated since the State must share in 50 percent of costs for as long as desegregation is required. However, the Ohio Department of Education estimates that, as of June 30, 1988, the State will pay approximately \$21 million each year that desegregation is required.

NOTE 15 OTHER LONG-TERM OBLIGATIONS (Continued)

For information on the State's loss contingencies arising from pending litigation and asserted claims, NOTE 21.

D. Workers' Compensation Obligation

The State is permitted to pay its Workers' Compensation liability on a terminal funding (pay-as-you-go) basis. As a result, the Bureau of Workers' Compensation (BWC) recognized an unbilled premium receivable for the State's portion of its actuarially determined liability for compensation. The \$259 million reported in the General Long-Term Obligations Account Group represents BWC's estimate of the State's portion of the long-term obligation.

E. Deferred Interest and Employee Severance Anticipation Compensation Plan

The Ohio Bureau of Employment Services had a \$40 million liability, as of June 30, 1988, for interest payable on unemployment compensation advances from the U.S. Treasury. This liability is recorded in the General Long-Term Obligations Account Group as the conditions of the advance require that the obligation be satisfied from governmental funds rather than the Unemployment Insurance Trust Fund. The \$40 million in interest was subsequently paid by the State on September 29, 1988.

The Ohio Turnpike Commission has adopted by resolution an "Employee Severance Anticipation Compensation Plan" (Plan), which will provide severance pay to each eligible employee whose employment by the Commission is terminated as a direct result of the outstanding bonds being paid and the Turnpike Project No. 1 being turned over to the State of Ohio as a toll-free road pursuant to current Section 5537.21, Ohio Revised Code. The amounts paid will cover years of service, unused sick leave, and vacation leave, with such amounts being determined by the Plan's provision. The accrued liability for vacation leave and unused sick leave, as of December 31, 1987, was \$8 million and is reflected in the General Long-Term Obligations Account Group.

F. Deferred Prize Awards

Prize awards payable in installments over future years are recorded at present value based upon interest rates the Treasurer of State provides the Ohio Lottery Commission. The interest rates are reviewed by the Ohio Office of Budget and Management and represent the expected long-term rate of return on the assets restricted for the payment of deferred prize awards. Once established for a particular deferred prize award, the interest rate does not change with changes in the expected long-term rate of return. The difference between the present value and gross amount of the obligations is amortized into income over the terms of the obligations using the interest method.

NOTE 15 OTHER LONG-TERM OBLIGATIONS (Continued)

The present value of future payments for unpaid prize awards, as of June 30, 1988, is summarized as follows (amounts expressed in thousands):

Year Ending June 30,	
1989	\$ 59,386
1990	58,091
1991	58,091
1992	57,824
1993	57,509
1994 through 1998	282,175
1999 through 2003	277,391
2004 through 2008	148,268
2009 through 2011	541
Total	<u>999,276</u>
Unamortized Discount	<u>(445,094)</u>
Net Prize Liability	<u>\$ 554,182</u>

The net prize liability for deferred prize awards, as reported above, includes a current net prize liability of \$18.175 million, which is reflected in "Refund and Other Liabilities" on the Combined Balance Sheet -- All Fund Types and Account Groups, as of June 30, 1988.

Prizes can be claimed within one year of the drawing date for on-line games and within one year of the close of a game for instant games. After the expiration of the statutory one-year period, the prize liability is reduced for the unclaimed prizes.

G. Reserve for Compensation

The Ohio Bureau of Workers' Compensation Enterprise Fund provides benefits to employees for losses sustained from job-related injury, disease, or death. The Bureau has computed a reserve for compensation, as of June 30, 1988, of \$8.61 billion. The reserve, which includes estimates for reported claims and claims incurred but not reported, is reflected as a liability on the Combined Balance Sheet -- All Fund Types and Account Groups, as of June 30, 1988.

STATE OF OHIO
 NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 19

NOTE 16 CHANGES IN GENERAL LONG-TERM OBLIGATIONS

Changes in general long-term obligations for the year ended June 30, 1988, are summarized as follows: (amounts expressed in thousands):

	General Obligation Bonds (NOTE 10)	Special Obligation Bonds (NOTE 11)	Revenue Bonds (NOTE 12)	General Long-Term Obligations (NOTE 15)
Balance, as of July 1, 1987	\$ 735,530	\$ 2,839,593	\$ 228,710	\$ 481,501
Additions:				
Debt Issues	170,000	460,900	10,000	---
Compensated Absences	---	---	---	13,587
Increase in Lease Obligations	---	---	---	2,146
Increase in Judgments	---	---	---	7,035
Increase in Workers' Compensation Obligation	---	---	---	2,806
Total Additions	170,000	460,900	10,000	25,574
Deductions:				
Debt Retirements, Terminations, and Defeasances	148,405	318,727	71,830	---
Decrease in Lease Obligations	---	---	---	3,230
Decrease in U.S. Treasury Deferred Interest	---	---	---	48,606
Decrease in Judgments	---	---	---	12,830
Total Deductions	148,405	318,727	71,830	64,666
Balance, as of June 30, 1988	\$ 757,125	\$ 2,981,766	\$ 166,880	\$ 442,409

NOTE 17 DEFERRED COMPENSATION PLAN

The State offers its employees and elected officials a deferred compensation plan created in accordance with Internal Revenue Code Section 457 that is reported in the Deferred Compensation Agency Fund. The plan, available to any public employee, permits participants to defer a portion of their salary and the related tax liability until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All amounts of compensation deferred under the plan, all property and rights purchased with those amounts, and all income attributable to those amounts, property, or rights are (until paid or made available to the employee or other beneficiary) solely the property and rights of the State (without being restricted to the provisions of benefits under the plan), subject only to the claim of the State's general creditors. Participants' rights under the plan are equal to those of general creditors of the State in an amount equal to the fair market value of the deferred account for each participant.

STATE OF OHIO
NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 17 DEFERRED COMPENSATION PLAN (Continued)

The State believes that it is unlikely that the assets will be used to satisfy the claims of general creditors in the future and no assets have been used in the past to satisfy such claims.

The \$175 million reported on the Combined Balance Sheet -- All Fund Types and Account Groups as Deposit with Deferred Compensation Plan represents State assets actually held by the plan administrator. An additional \$2 million is also reported as "Due from Other Funds" and represents contributions by plan participants as of June 30, 1988, that had not yet been remitted to the plan administrator by the State.

NOTE 18 ENTERPRISE FUNDS

A. Segment Information

The State has four enterprise funds, which provide for workers' compensation insurance services, liquor sales, lottery sales, and state parking facilities.

Segment information for the fiscal year ended June 30, 1988, unless otherwise noted, was as follows (amounts expressed in thousands):

	Workers' Compensation Fund (12/31/87)	Liquor Control Fund	Ohio Lottery Commission	State Parking Commission (12/31/87)	Total Enterprise Funds
Operating revenues	\$ 1,193,559	\$ 350,376	\$ 1,411,056	\$ 1,872	\$ 2,956,863

STATE OF OHIO
NOTES TO THE FINANCIAL STATEMENTS

JUNE 30, 1988

NOTE 18 ENTERPRISE FUNDS (Continued)

B. Workers' Compensation Fund

The financial statements of the Ohio Bureau of Workers' Compensation and the Industrial Commission of Ohio (Workers' Compensation Enterprise Fund), as of and for the year ended December 31, 1987, were examined by their independent auditors, who issued their report on their examination on December 9, 1988. The accounting records of the Workers' Compensation Enterprise Fund are not adequate to permit proper measurement of certain assets and liabilities, including estimates of reserves for claims. In addition, the outcome of several litigation matters is uncertain and their auditors were not able to apply sufficient auditing procedures to satisfy themselves as to the fairness of presentation of the financial statements. Accordingly their auditors did not express an opinion on the financial statements of the Workers' Compensation Enterprise Fund. For additional information, refer to the separate audit report of the Ohio Bureau of Workers' Compensation and the Industrial Commission of Ohio.

NOTE 19 SPECIAL REVENUE FUNDS

The independent auditors of the Ohio Bureau of Employment Services reported that certain expenditures of its special revenue funds, which had been incurred and which were reimbursed under federal awards, have been questioned in the amount of \$51 million. The amount of expenditures, which may ultimately be disallowed by grantor agencies and repaid by the Bureau, is not presently determinable, and no provision has been made in the financial statements of the Special Revenue fund of the Bureau for the effect, if any, of such repayment.

NOTE 20 RETAINED EARNINGS DEFICIT

A retained earnings deficit of \$2.27 billion is reported for the Workers' Compensation Enterprise Fund, as of June 30, 1988. Management believes the financial condition of the Workers' Compensation Fund can be improved through the provisions of new legislation and current programs aimed at controlling medical claim costs and lost time compensation claim expenses and through increases in premiums.

The Telecommunications Internal Service Fund, has a retained earnings deficit of \$13 million as of June 30, 1988. Management believes that a substantial portion, if not all, of the deficit balance will be eliminated when fixed asset and capital lease information becomes available and is reported in the Telecommunications Fund.

NOTE 21 CONTINGENCIES

The State, its units and employees are parties to numerous legal proceedings, which normally occur in governmental operations. All legal proceedings are not, in the opinion of management after consultation with the Attorney General, likely to have a material adverse impact on the financial position of any of the State's fund types and account groups.

NOTE 21 CONTINGENCIES (Continued)

Additionally, the State and its units are involved in certain other legal proceedings which, if decided adversely to the State, may require the State to make future expenditures for expanded services or capital facilities or may impair future revenue sources. It is possible neither to determine the outcomes of these proceedings nor to estimate the possible effects adverse decisions may have on the future expenditures or revenue sources of the State.

Under the terms of federal grants, periodic audits are required and certain costs have been and may be questioned as not being appropriate expenditures under the terms of the grants. Claims resulting from such audits could lead to reimbursements to the grantor agencies. Management believes ultimate disallowances, if any, will be immaterial to all fund types and account groups.

NOTE 22 SUBSEQUENT EVENTS

Subsequent to June 30, 1988, the State had the following major debt issues (amounts expressed in thousands):

Organization	Date of Issue	Average Net Interest Rates	Amount	Type of Debt
Ohio Building Authority:				
State Facilities-Fountain Square/ State Office Building	July 7, 1988	7.4%	\$ 52,160	Special Obligation
State Facilities Bond Anticipation Notes	August 22, 1988	10.0	4,700	Special Obligation
Correctional Facilities	August 25, 1988	7.8	75,000	Special Obligation
Ohio Public Facilities Commission:				
Parks and Recreation Facilities Bond Anticipation Notes	July 6, 1988	5.5	20,000	Special Obligation
Higher Education Facilities, Series 1988B	September 29, 1988	7.1	115,000	Special Obligation
Mental Health Facilities, Series 1988A	September 29, 1988	7.3	40,000	Special Obligation
Treasurer of State:				
Infrastructure Improvement	December 20, 1988	7.2	<u>120,000</u>	General Obligation
Total			<u>\$ 426,860</u>

STATEMENTS**

SPECIAL REVENUE FUNDS

The **Special Revenue Funds** account for specific revenues that are legally restricted to expenditure for designated purposes.

The **Community and Economic Development Fund** accounts for programs administered by the Department of Development, the Ohio Housing Finance Agency, the Ohio Air Quality Development Authority, the Ohio Water Development Authority, and other various State agencies, which are designed to assure the efficient use of resources for the State's economic growth and development.

The **Human Services Fund** accounts for public assistance programs primarily administered by the Department of Human Services and various other State agencies, which provide financial assistance, services, and training to those individuals and families who do not have sufficient resources to meet their basic needs.

The **Health Fund** accounts for public health programs administered by the Department of Health, which promote the prevention and treatment of diseases and illnesses through technical assistance, health education, and research.

The **Mental Health and Retardation Fund** accounts for mental health care and retardation programs administered by the Department of Mental Health and the Department of Mental Retardation and Developmental Disabilities, which provide assistance, services, and medical care to those individuals with mental health and developmental disability problems.

The **Employment Services Fund** accounts for programs administered by the Ohio Bureau of Employment Services, which provide unemployment benefits, job placement services, and training to eligible individuals.

The **Education Fund** accounts for programs administered by the Department of Education, the Ohio Board of Regents, and other various State agencies, which prescribe the State's minimum educational requirements and which provide funding and assistance to local school districts for basic instruction and vocational and technical job training and to the State's colleges and universities for post-secondary education.

The **Student Loan Commission Fund** accounts for the Federal Guaranteed Student Loan Program and other programs administered by the Ohio Student Loan Commission, which provide financial assistance to eligible individuals attending higher educational institutions.

The **Highway Safety Fund** accounts for public safety programs administered by the Department of Highway Safety, which are designed to enforce traffic-related laws for the purpose of reducing accidents, deaths, injuries, and property damages on Ohio highways.

SPECIAL REVENUE FUNDS (Continued)

The **Highway Operating Fund** accounts for programs administered by the Department of Transportation, which provide for the planning and design, construction, and maintenance of Ohio's highways and roads.

The **Ohio Turnpike Commission Fund** accounts for the general operations of the Ohio Turnpike Commission, which is authorized by the Ohio General Assembly to construct, maintain, repair, police, and operate turnpike projects at such locations approved by the State.

The **Natural Resources Fund** accounts for environmental programs administered by the Department of Natural Resources, the Environmental Protection Agency, and other various State agencies, which promote, protect, and manage the State's natural resources and environment.

The **Wildlife and Waterway Safety Fund** accounts for programs administered by the Department of Natural Resources' Divisions of Wildlife and Watercraft, which promote, protect, and manage the State's wildlife and waterways and which provide technical assistance and education to the public.

The **Regulatory Fund** accounts for programs administered by various State agencies, which are designed to regulate industry, agriculture, commerce, and other activities conducted within the State.

The **Revenue Distribution Fund** accounts for tax relief and aid to local government programs, which derive funding from tax and other revenues levied, collected, and designated by the State for these purposes.

The **Other Fund** accounts for administrative and regulatory activities of various departmental programs and other miscellaneous State activities.

DEBT SERVICE FUNDS

The **Debt Service Funds** accounts for the accumulation of resources for the payment of general long-term debt principal and interest.

The **Economic Development Bond Service Fund** accounts for the payment of principal and interest on bonds issued to finance loans to individuals, corporations, and agencies within the State, which cannot obtain conventional financing for economic development projects that create or retain jobs in the State.

The **Ohio Turnpike Commission Bond Service Fund** accounts for the payment of principal and interest on refunding revenue bonds issued in 1984 by the Ohio Turnpike Commission to refund the remaining portion of the original 1952 bonds issued to finance the construction of the Ohio Turnpike.

The **Coal Research/Development Bond Retirement Fund** accounts for the payment of principal and interest on general obligation bonds authorized by Section 15, Article VIII of the Ohio Constitution to provide financing for coal research and development projects.

The **Improvements Bond Retirement Fund** accounts for the payment of principal and interest on general obligation bonds authorized by Section 2f, Article VIII of the Ohio Constitution to provide financing for the improvement of higher education facilities, public schools, and natural resources and for other purposes.

The **Highway Improvements Bond Retirement Fund** accounts for the payment of principal and interest on general obligation bonds authorized by Section 2g, Article VIII of the Ohio Constitution to provide financing for the acquisition of rights-of-way and for the construction and reconstruction of the State's highways and urban extensions.

The **Development Bond Retirement Fund** accounts for the payment of principal and interest on general obligation bonds authorized by Section 2h, Article VIII of the Ohio Constitution to provide financing for the construction, improvement, and development of higher education facilities, public schools, and natural resources and for other purposes.

The **Highway Obligations Bond Retirement Fund** accounts for the payment of principal and interest on general obligation bonds authorized by Section 2i, Article VIII of the Ohio Constitution to provide financing for construction of the State's highways.

DEBT SERVICE FUNDS (Continued)

The **Public Improvements Bond Retirement Fund** accounts for the payment of principal and interest on general obligation bonds authorized by Section 2i, Article VIII of the Ohio Constitution to provide financing for the improvement of higher education facilities, water pollution controls, parks and natural resources, and other projects.

The **Special Distribution Bond Retirement Fund** accounts for the payment of principal and interest on bonds issued to provide financing to the Depositor Assistance Corporation for acquiring financial institutions, which were in financial difficulties as a result of the Home State Savings and Loan bankruptcy in 1985, as a means to provide remuneration to depositors with assets placed in such institutions.

The **Vietnam Conflict Compensation Bond Retirement Fund** accounts for the payment of principal and interest on general obligation bonds authorized by Section 2j, Article VIII of the Ohio Constitution to provide compensation to Ohioans that served in the military during the Vietnam Conflict.

The **Ohio Public Facilities Commission Fund** accounts for the payment of principal and interest on bonds issued to finance the construction of mental health, higher education, parks and recreation, and State park facilities.

The **Ohio Building Authority Fund** accounts for the payment of principal and interest on bonds issued to finance the construction of State office buildings and rehabilitation and correctional facilities.

The **Bureau of Employment Services Fund** accounts for the payment of interest on advances from the U.S. Treasury.

CAPITAL PROJECTS FUNDS

The **Capital Projects Funds** account for the acquisition and construction of major capital facilities and for major repairs and replacements other than those financed by proprietary funds and trust funds.

The **Ohio Turnpike Commission Fund** accounts for bond proceeds that finance capital outlay and major repairs and replacements for the Ohio Turnpike.

The **Higher Education Improvements Fund** accounts for bond proceeds that finance the construction of facilities for State-assisted higher education institutions.

The **Highway Obligations Construction Fund** accounts for bond proceeds that finance capital outlay and major repairs and replacements for the State's highways.

The **Mental Health/Mental Retardation Facilities Improvements Fund** accounts for bond proceeds that finance the construction of mental health/mental retardation facilities.

The **Public Improvements Fund** accounts for bond proceeds that finance the capital improvement of higher education facilities, water pollution controls, parks and natural resources, and other projects.

The **Parks and Recreation Improvements Fund** accounts for bond proceeds that finance the capital improvement of park and recreation facilities.

The **Ohio Building Authority Fund** accounts for bond proceeds that finance the construction of State office buildings and rehabilitation and correctional facilities.

ENTERPRISE FUNDS

The **Enterprise Funds** account for operations that are financed and operated in a manner similar to private business enterprises -- where the State's intent is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or where the State has decided that periodic determination of net income is appropriate for accountability purposes.

The **State Parking Commission Fund** accounts for the operations of the State Parking Commission.

The **Liquor Control Fund** accounts for the operations of the Department of Liquor Control.

The **Ohio Lottery Commission Fund** accounts for the operations of the State Lottery.

The **Workers' Compensation Fund** accounts for the operations of the Bureau of Workers' Compensation.

INTERNAL SERVICE FUNDS

The **Internal Service Funds** account for the financing of goods or services provided by a State department or agency to other agencies and to other government units, on a cost-reimbursement basis.

The **Ohio Building Authority Fund** accounts for the revenues and operating expenses of State office buildings and other government buildings owned by the Ohio Building Authority.

The **Ohio Data Network Fund** accounts for the revenues and expenses associated with electronic data processing goods and services provided to user State agencies and to local government units.

The **Ohio Penal Industries Fund** accounts for revenues and expenses associated with the purchase of raw materials and labor costs that are incurred in the production of manufactured goods and agricultural commodities sold to user State agencies.

The **Support Services Fund** accounts for revenues and expenses associated with the purchase of food, medical, and other institutional supplies and the costs of services provided to user State agencies.

The **Telecommunications Fund** accounts for the revenues and expenses related to telecommunications services provided to State agencies and to local government.

TRUST AND AGENCY FUNDS

Trust Funds account for assets held by the State in a trustee capacity. **Agency Funds** account for assets held by the State as an agent for individuals, private organizations, other governments, and/or other funds.

Expendable Trust

The **Employment Services Fund** accounts for unemployment insurance benefit claims.

Pension Trust

The **State Highway Patrol Fund** accounts for the accumulation of resources for pension benefit payments to qualified employees of the State Highway Patrol who participate in the State Highway Patrol Retirement System, a component unit of the State.

Agency

The **Holding and Distribution Fund** accounts for assets held until such time that a determination has been made to refund amounts to the original owners or to distribute amounts to other State funds.

The **Payroll Withholding and Fringe Benefits Fund** accounts for assets held to liquidate the State's payroll withholding obligations.

The **Tax Refunds Fund** accounts for assets held to liquidate the State's tax refund obligations.

The **Unclaimed Funds Fund** accounts for assets held for owners of unclaimed intangible property. Unclaimed property is that property in which the owner has not taken some action to indicate ownership interest over a certain period of time specified under Chapter 169, Revised Code.

The **STAROhio Fund** accounts for assets held for local government units that participate in the State Treasury Asset Reserve of Ohio (STAROhio), a pooled investment fund managed by the Treasurer of State.

The **Deferred Compensation Fund** accounts for assets held for employees in accordance with the provisions of Internal Revenue Code Section 457.

The **Other Fund** accounts for assets held for others, which are not accounted for in another agency fund.
